## "Thy Kingdom Come"

The material for this book was published serially in The Beacon Light last year, and presented to the public in book form in October; and has created something of a sensation among thinkers, especially among men and women who are leaders among leaders. We have letters from ministers of many denominations, and the book has only been out about 30 days as this is written. Metaphysical students of many schools have proclaimed it the Book of the Age.

Let me quote one of the many enthusiastic testimonials, received from Dr. Juno Kayy Walton, daughter of Julia Seton, internationally known Truth teacher, and herself president of California Institute of Numerical Research Inc. and the acknowledged leader in the field of numerology:

"Dear Mr. Kullgren: Congratulations! You have put out a wonderful book. It is colorful and attractive from the first glance, and the Bible references quoted make it very valuable.

"It is gratifying to me to know that the Letters are now in book form for all to read; they are too valuable to be given only to the few, and this is written with so much sincerity, love and sweetness. I first received them in 1934, and at that time it seemed an impossibility that a greater war could come, or any of the prophecies of change could come. But year by year I have seen the prophecies come true, and there is every reason now to believe the rest will likewise be true.

"There is nothing to fear in the prophecy of change; instead, they give me a feeling of joy, that so soon the old, false ways of living and the unfair methods of business and politics will be a thing of the past. Then we will all share in a happier world, good to live in."

'Thy Kingdom Come' contains a message of hope for a despairing world, for it gives the workable economic plan of the future; a divine blue print of God's plan for the human race, based on the laws of God, or if you prefer the laws of Nature.

This is the goal of all idealists, and this plan should appeal to all sincere seekers for a workable solution to the world's problems.

Beautifully bound in art covers; the price is \$1.00, and we are offering 6 copies for \$5.00.

## A BIRD'S-EYE VIEW OF 1942

The following are just a few high-lights for 1942; you will find them incorporated in one of the many chart delineations, but I am giving this for quick reference throughout the year.

**No Election:** First, patriotic citizens everywhere are pinning their hopes upon the coming election. Well, as I review the astrological picture of key individuals and of the nation as a whole, it is in my opinion, a vain hope. To me the indications are that there will be no election; the President has no intention of even the semblance of an election in 1942. This is plainly indicated in his chart, and augmented by our national chart.

So much for the abstract; the physical facts indicate that they do not dare allow the American public a free expression of the franchise. When at least 80 per cent of the people are against your policy, if you are President, you can readily see that a free election amounts to suicide as far as you are concerned.

Now astrology is not fatalism, it merely indicates the trend of things, and I am telling you what the trend is. On the other hand, if there were a coalition of patriotic groups, such as The National Legion of Mothers, The American Coalition, The Citizens No Foreign War Coalition, The Citizens Keep America Out of War Committee, The America First Committee, and many others too numerous to mention, we could have an election, and we could, and would, clean house in Washington. Not by force, as advocated by the rabble organizations—and there are many—but through constitutional, legal channels, which is the only right and proper way. The Constitution provides for the removal of anyone, from the President down, for malfeasance in office. On this issue alone, the fate of America is trembling in the balance; for should the above suggestion not be carried out, violence is inevitable. Not that I advocate violence, I do not, I shall never be a party to it; I believe in liberty under the law. And when we give way to violence we have in effect served notice that we are not law-abiding citizens; that we are a mere rabble; that we have committed treason against the Constitution and its Bill of Rights. The fact that those in office have torn the Constitution into scraps of paper does not give you the right to do likewise, for you have then descended to their level.

But as surely as the Sun rises in the east and sets in the west, so surely will violence break loose in America; the Mars-Uranus type will take the bit in their teeth, and chaos will reign throughout the land. And so the fate of America lies in the hands of men and women who can think straight and have the courage of their convic-

tions, without fear or favor of any man to fulfill their duty as God-fearing citizens of the Republic.

And so we have the choice of two paths in 1942; the path of constitutional law or the path of lawlessness and chaos. In one sense 1942 is Judgment Day, inasmuch as this issue can not be delayed any longer. Action there will be; the kind of action, however, depends upon which path we choose to take. For the benefit of astrological students, I would draw your attention to the fact that Uranus, the awakener, is slowly but surely coming to a conjunction of Uranus the iconoclast, and that Saturn will indeed cross that point during the latter half of the year. There are other indications which will be touched upon in the proper place, but I am giving you a last-moment warning of the trend, and telling you that circumstances will force you into action unless you take it voluntarily. And so there will be no choice whatsoever, and you will be swept along by the tide of events—just as I heard John Reed tell the story of the fall of the Kerensky government. Reed said, 'I was present when the revolutionary mob broke in on Kerensky who had been spending days telling the people what he was going to do; but he left it too late; he talked while the opposition acted.' And that is exactly what will take place in America if we continue to talk, and do nothing.

**War and Dictatorship:** Indications are that the Administration intends full participation in war, and with a rigid dictatorship in the name of national emergency. What sins are committed in thy name! We have had a series of national emergencies ever since Roosevelt was elected in 1933, and each emergency is worse than the last. And before this year is very old, Dictator Roosevelt will make the last pronouncement, after which your opportunity for liberty under law will be gone; the thinker will be in the concentration camp; military power will be in control. Then your only recourse will be violence.

When that time arrives my work will be finished; I am an educator, not a butcher. I am a firm believer, as indicated above, in liberty under law. And so the educator will step out of the picture and the warrior will take charge; the organized military forces on one side, and a guerrilla warfare of the mob on the other side. And thus will come about civil war as an aftermath of a declaration of war by the Executive, or Congress, or both.

**Civil War:** We shall then be in the throes of civil war; brute force will break loose. All restraint will be gone, and we shall find that we shall have real trouble at home without looking for it

abroad. The people will not co-operate with the war machine bent on fighting in foreign lands. You can lead a horse to the trough, but you can not make him drink. You can declare war but you can not compel people to fight a war for which they have no stomach. Besides, a large proportion of the people know why we are being forced into war; fully 40 per cent know that the Synagogue of Satan is in charge of our national government, and that those who do not die in conflict, on one side or the other, will be regimented, enslaved or exterminated. That is the program under a dictator, no matter what he calls himself. Russia, Germany, Spain, have had their blood baths, and so shall we; all in the name of freedom, of liberty, of democracy. Thousands of patriotic Britons are rotting in jails in England; and remember, we shall be fighting for that brand of freedom. Then there are the wholesale slaughters that have taken place in China and Russia.

Incidentally, the coalition with Russia is the last straw as far as the people of this nation and England are concerned. Both nations will revolt against this alliance. Christian people know it is unscriptural. The laws of England and of America are basically Christian. Russia is a Gentile nation and our Christian Bible quite plainly commands us to make no treaties with Gentile nations. These two elements will not mix; and so we shall have the fulfillment of the various prophecies concerning the conflict here in America. For references, see our book, 'National Destiny'.

**Defeat of Communism:** As I write, early in November, Russia and Germany are in deadly conflict; and possibly before this appears in print Russia will be conquered; but in any event, before the first half of 1942 is out, Russia, as an independent world power, will be gone and the death knell of Communism will be heard. Hitler will have fulfilled his mission, namely, to exterminate Communism, in spite of wishful thinking by people who have ignored the word of God and done violence to His teachings and precepts.

**Epidemics :** There are indications of an epidemic of disease that will sweep the nation. I know not what name it will carry, possibly that of intestinal flu because it will be of an intestinal nature. I suppose the good Lord knows that we need an intestinal cleansing. It will likely be a combination of intestines and lungs; but before it is over with, it will go down in history as a plague.

Now this bird's-eye view of 1942 is not a pleasant one, nevertheless we are responsible for it; we are its creators. The Synagogue of Satan could not have gotten control of our nation if there had not been a falling away from spiritual fundamentals. (See The Vi-

sion of Elder Hoag, in 'National Destiny'). We have denied God, and so we must pay the price; we must retrace our steps, and place the recognition of God first in our lives, individually and nationally, or else we shall perish, as other nations have done before us.

As a nation we have the 'gimmies', we have become a race of synthetic Jews; we have cast aside our Christian teachings of the Bible, and substituted the law of the Talmud; the law of man; the law of force. And so as the Good Book says, 'Be not deceived: God is not mocked. For whatsoever a man soweth, that shall he also reap.'

Christian patriots throughout the nation have urged you to take your stand as Christian Americans; to stand by the men and women who have fearlessly proclaimed the laws of God and the laws of our constitutional government; they have urged your financial support of their mission, the vast majority have ignored that plea; more especially those with substantial incomes. And so the law is now being fulfilled. You have had the choice of denying yourself, of your own free will—to live a life of service; through force and regimentation you are going to learn that lesson. Money alone will not save the nation; only a tremendous spiritual awakening can do that, so that you will substitute for self-interest the spirit of service to God and country. At present you are full of personal selfish demands; through privation you will learn humility of spirit and the desire to serve, and will walk humbly before God.

## CHATS

By The Editor

With this issue, The Beacon Light begins its tenth year of existence in its present form, although actually it started away back in 1927; of course we didn't know it then. That was part 1 of its existence, and it continued up to July of 1932 in the columns of the Atascadero News. For the next six months it was put out in the form of weekly bulletins, given free locally and mailed once a month to subscribers; and finally, in January of 1933 it assumed its present form, with the name, The Beacon Light.

And so, for 15 years we have endeavored to guide and direct our readers' path. Now, if The Beacon Light has meant anything to you throughout these years, won't you do something to show your appreciation? During these years, we have received thousands of letters saying how helpful The Beacon Light has been to the writers.

**6 copies of this issue for \$1.00; circulate them among your friends.**

Well, if such is the case, there must be thousands of others who would find it helpful; and so I am putting the responsibility on your door-step, to search out these thousands.

One can easily tell whether a person is receptive or not, by drawing them out. Our people are confused and befuddled, and of course that state of affairs was planned. Beacon Light readers, however, know the score, they know exactly what it is all about. And so, God, or Cosmic Law, will hold them responsible for passing on this knowledge.

I have just completed the predictions for 1942; and no drunkard ever had a worse headache than I have, for I have been working on it for several months; it's the hardest grind of the year. Remember, it's a side issue from my daily objective.

And so, as soon as this issue is in the mail, I am going to hike off somewhere and hide out; rest up; change the mental picture. Because this is not a very optimistic occupation, nor is it conducive to health—continually turning the searchlight of truth on the rottenness and degradation of the nation. I have a fellow-feeling for the prophets of old, it's a rather thankless task. In addition to the magazine, we are launching 'National Destiny', which will, I am sure, create a sensation.

Now, while I am resting, I want you to work; for from present indications this will be the last semblance of a normal Christmas for our nation, for the next seven years. It need not be so, if you would awake from your slumber; the people of the United States have the power to change the picture over night. The planets only indicate the trend but in the last analysis the people of the nation make the decision, either by indifference or by action.

Now I have repeatedly asked you to get 6 copies for \$1.00 and send them to your friends and neighbors; I have told you we sell approximately a thousand copies, and we accept no paid ads; see if you can make that pay its way. As I told you in August, you people will decide the future of The Beacon Light. I know that Hudson, Phillips, Mrs. Dilling, Sanctuary, De Aryan, Garner, Winrod and a host of others are worn to a frazzle with threats and intimidation, and with scarcely enough funds to pay the weekly bills.

If you are to be saved from disaster, this picture must change over night. If you gave only a fraction of your income to these men and women, that the government will extract from you this year and from then on, your sufferings would soon end. Now I have set a goal for your people to attain; and if you do not attain it, **6 copies of this issue for \$1.00; circulate them among your friends.**

shall conclude that you are not worth the effort that I put forth every month.

I want every reader of The Beacon Light to send \$1.00 for 6 extra copies of this number. There are possibly 10 per cent of our readers who can not afford that; that means that those who are able must pick up the slack. This of course should be done every month; but I am asking all of you to do it for at least one month. This will enable us to straighten up with our printer and a few other bills, and start the new year with a bang.

We also have 10,000 circulars such as were in the December Beacon Light, for free distribution; we will gladly accept any donation you care to send for that purpose.

Now remember, \$1.00 for 6 copies of this issue, to be used for missionary purposes; and this includes the several thousand who read their neighbor's copy and never spend a cent toward its support. Now I am putting it up to you, if you want this message to continue you must shake your bones and do something more than sit back in your armchair and enjoy the results of my research and labor.

To get along comfortably we need 5,000 subscribers; we would have this number if everyone who reads it were a subscriber, for we estimate, from letters received, that 10,000 people read The Beacon Light each month, but only 1,000 buy it. So the majority of you have virtually said, in effect, that The Beacon Light is not worthy of support. The subscriptions of this thousand readers do not pay all expenses; a few donations and my efforts make up the balance. Surely you don't want a condition like this to continue. As you know, any magazine that tells the truth is taboo on the news stands; and so I say a big opportunity and a big responsibility are yours with the reading of this issue.

Sit right down and send that dollar bill now; good intentions will not help me nor the people who need The Beacon Light; put your dollar bill in a letter, and I will take the risk of its safe arrival, or if you prefer, send stamps; any denomination that is convenient, we use oceans of stamps in the year. In this way you can say Thank you, to your editor, for the long hours spent in getting out this issue, mostly in night sessions when you were asleep and resting, because I have too many interruptions in the daytime.

If you want the leaflets described in the December number, tell me how many you can use and they will be sent free of charge.

And don't forget to order your copy of 'National Destiny', and keep it circulating.

**6 copies of this issue for \$1.00; circulate them among your friends.**

## THY WILL BE DONE

Running through the pages of The Beacon Light for the past ten years, like a silver thread, have been various articles touching on this subject. The following letter is from a reader who has constantly brought it up:

"Dear Friend Kullgren: The November number to hand and glad to see the atmosphere of continuation running through it. This will be welcome news to your readers; your plans for the issues to come. I hope the awakened group of Beaconites will daily put into practice the common denominator of all religions:

"Father, THY will be done through **me**".

There is no telling how much good will be done by even 10,000 people scattered throughout the nation making themselves, and what friends they can reach, channels for Divine manifestation. Why not try to make the U. S. A. the first nation to be the hands and feet of God? At the present writing God has not one nation through which to work voluntarily. Let America be first.

The definiteness of "me" in the above c. d. personalizes the channel and emphasizes the need of individualized action on the part of the speaker. All pray-ers would like to see God get into action on the European Continent, or in Washington, but the necessity of recruiting enough "me's" to make America a channel of national action is usually overlooked. In fact it quite startles and electrifies most people when they realize that God can be asked to work through them—one tiny "me". HE is searching for such invitations, and enough thereof would give HIM an American fulcrum which could have an ultimate effect out of all proportion to the numbers involved. You recall the old statement that a lever long enough could move the world. God is that lever, but HE needs a human fulcrum, through which to apply Divine power.

A monthly reiteration of this theme might be productive of considerable results. With best wishes, Sincerely, . . . . "

This letter, in the first paragraph, gives me an opportunity of stating that the question of continuing the magazine is not really in my hands; it is in the hands of our readers. You see, a magazine whose motto is, No religion higher than truth, is going to make a lot of enemies, which of necessity restricts its circulation; and that applies to any periodical which refuses to compromise. For nearly ten years we carried the load of the magazine; we earned a fairly good living selling typewriters after the bankruptcy in '34 and '35, in spite of physical handicaps. Later we added juice extractors and

other items. But priorities are raising havoc with the small man, and we are one of them, until today our sales are about one-eighth of what they were, although in fairness I will say that part of this is due to the fact that I am too busy with the magazine work to devote time to earning a living outside. I had contacts which I kept in touch with every month, that provided amply. Now, I never make contacts except through the mail; and, brethren, they are mighty few and far between; our readers seldom think of us when they need typewriters or juice extractors.

And so, I am on the producing end of the magazine, and our readers are on the selling end. If I were to compromise, our circulation would be ample in a few months. Certain advertising, and a toning down, a compromising, would open certain doors that would make our circulation soar. But, The Beacon Light would be dead. And so, my friends, The Beacon Light is in your hands, not mine; and personally, I don't think it is in very good hands. A few weeks ago we received a letter from a man who has read The Beacon Light since its inception, 10 years ago, and even before that our weekly articles in our local paper. I am quoting from memory as I have mislaid his letter: 'I have read The Beacon Light since the beginning but this time my answer must be in the negative to your request for renewal.' And then he quotes Pearson and Allen of the Washington Merry-Go-Round, to the effect that anyone who criticized the Administration was helping Hitler. Now when a man can read The Beacon Light for ten years, and accept such rot and act upon it, it doesn't show a very high grade of intelligence. Pearson & Allen are unofficial mouthpieces for the Administration, whose motto is that King Franklin can do no wrong.

Only last month we answered a letter from an old time reader who said we should not criticize. Lack of criticism has put this nation to sleep. The American public has followed the Pied Piper who made extravagant promises which he had no intention of fulfilling. Our nation is sadly lacking in discrimination, and we are trying to teach you to think and to discriminate, and to point out where the present day leaders are leading you. When you follow a self styled leader, you are not following God; you have surrendered to the hypnotic spell of a spell-binder and God does not play any part in the picture at all. Instead of saying, 'Do the ideas of this leader blend with the will and plan of God?', you say, 'I like him, he has such a soothing effect on me; I don't have to think, which is painful; he does it for me.'

Now the theme of 'Thy will, O Lord, not mine, be done', is the

most important one in the world, bar none; for the absence of this theme has caused all the trouble in the world today. I said 'all', remember, without any exceptions. 'My will, at any price, separates humanity into fighting groups, like a bunch of mongrel dogs, all fighting for the same bone. When we reverse that, we say, in effect, Take no thought for self; because when you substitute the 'thy' for the 'my', the law begins to work for you, and you get more by submitting to the will of God than you do when you go out and fight for everything in sight.

Of course I am taking a long range view of the subject; I am viewing the evolution of a soul. Individually, in certain chapters of our lives, we will suffer for a time; but if we carry out the injunction that the Master gave, namely, 'Seek ye first the kingdom of God and his righteousness . . .', there will be no knocks in the motor, no carbon in your cylinder and valves; no war of conquest, no economic wars. We will laugh when someone tells us we are going to fight for the four freedoms or fight for democracy. War begets war, and peace begets peace.

And so I say it is possible for our readers to make The Beacon Light a self sustaining vehicle without any subsidy from me or from its readers; at present it can not exist except in that way. We estimate that no less than 10,000 people read The Beacon Light each month; but the number of readers who have a realization of a duty to perform by increasing its circulation is too small to even mention; just a mere handful. But should that number be galvanized into action by the realization of duty, by a realization that this message would so enthuse people that they would force a right-about turn in Washington, we could be the leaven in our national bread and completely turn the tide. You read The Beacon Light every month, but very few of you have the realization as we have of where we are drifting. If you did have that realization, you would set aside a definite amount of time or its equivalent in money as belonging to the Beacon Light message. There are a few who have definitely done that; and here is a surprise: with one or two exceptions, these few are people on relief. One old gentleman who has his old age pension, sends his dollar each month for 6 copies of The Beacon Light. Now if you all did that, \$1.00 a month in addition to your subscription, which is less than 25 cents a week (surely this is not asking much) and then take 6 copies of the current or any other issue we have, we would surely go places. The grateful letters we get from new contacts indicate that people are hungry for such a message. Certainly I believe that it is God's will that America be saved from the

horrible bloodshed indicated; I can not believe otherwise; but He is helpless when our people do not co-operate with Him.

Ever since the first number of *The Beacon Light* we have said that we can better help the rest of the world by a living example rather than through force. If The United States becomes a working model of the 'Thy will be done' principle, which after all is carrying out the Israel laws of the Bible, regarding health, agriculture, economics and so on, the rest of the world, seeing that bright light of a harmonious working model, of an economic system, would immediately investigate as to the operation of that system.

You know that is quite the reverse to the plan of Mr. Roosevelt and the New Deal; but I tell you it is the only one that will work.

Mr. Roosevelt and his cohorts fondly believe (or are trying to tell us) that an immense military machine will make the world be good. Of course the facts are that we are now and have been an aggressor nation ever since the days of Theodore Roosevelt, when at the request of England we helped to build trade walls around Germany. Then came the vicious Treaty of Versailles, of which we were a part, which plainly showed our insincerity.

And so, my friends, we must reverse our national program. If the Scriptures are to be believed, the Gentile world will destroy itself; and if you want to know why, it will be necessary to go back to the beginning and find out who the progenitors of the Gentile people were and why they will ultimately destroy each other. You see, Jesus realized that when He said that his message was for the House of Israel, the ten lost tribes; because he knew that the Gentile people had rejected God and His plan, were rebels and would not listen. He knew it was in their blood and that no amount of vicarious atonement was going to change them. In the animal kingdom we know the importance of the blood line. The slaughter of the next four years, according to the Scriptures and according to the trend of things as planned by man, will be such that but a handful will survive. At the time of the Flood such a cleansing took place through water, because humanity was destroying itself; and that is what it is doing today. All who refuse to submit to the Will of God will be exterminated through the period of the next seven years.

If you are a farmer, you know that the tares or weeds choke your crop if you do not keep your land clean. Incidentally, this is one of the reasons for the Biblical injunction that the land should lie fallow one year in seven. And so the Bible states quite plainly what will happen to the tares in these last days. The Gentile, or Babylonian system would destroy humanity; they are the tares of human-

ity. They became so through their own volition as an act of rebellion. Now there is no mystery about that; you can go back to your Bible and trace the whole thing. And then you will better understand Jesus when He said Go not into the way of the Gentiles but rather to the lost sheep of the House of Israel. Start at the beginning, in Genesis, with Noah and his three sons, Shem, Ham and Japheth. The Israelites all descended from Shem; all Semitic races descended from Shem, because they are one and the same. And so when the Jews tell us we are anti-Semitic they are talking through their hats. The Jews who boast of their pure Semitic blood strain are very largely of Gentile blood and not Semitic at all. History and the Bible will bear out this point. In this connection, let me say that the Russians are definitely a Gentile nation; and this is the most important reason in the world why we should not affiliate, no matter what their government may be. Read the 38th and 39th chapters of Ezekiel for the key, and you will not be surprised at the terrible slaughter now going on in Russia.

And now just a word about the founders of the nation; they were definitely men of Israel blood and were carrying out the traditions of the Israelites. This is very startling, and runs all through Washington's farewell address; when he said keep clear of all foreign entanglements he was re-stating what the Bible commanded, 'Make no treaty with the Gentile nations'. If you know your Bible, you know that this was no arbitrary command, because as stated above Gentiles are those in whose bloodstream there is the spirit of rebellion to the will of God; and so the Gentile nations and people must die, must be exterminated, lest they again pollute the bloodstream of the world. In succeeding incarnations those souls will eventually be born in Israel bodies; and so you see it is only an extermination of bodies and the bloodstream instead of individuals; but only through suffering are they refined sufficiently to inhabit a body of Israel blood. You say, How is it possible to sort them out today? The law does that automatically; evil destroys itself and so the evildoer sets in motion forces that eventually destroy him. And in this little sermonette I have tried to show a reason why we should submit to the will of God; it is because it is the only plan that will bring about harmony-making conditions throughout the world. But the working model will be set up here in America; America was set apart for that very function or purpose. We can lessen our suffering by submitting to the will of God as individuals; if we resist it means a terrible slaughter. This is our program, and we ask you to co-operate with us, if you want America to fulfill her God-given destiny.

## THE U. S. CHART IN 1942

The chart of the U. S. should throw additional light on our national trend. I say 'trend', because I repeat I am not a fatalist. There are several outstanding indications; first, we are still under the influence of Neptune over its place at birth in the national chart, the same being adverse to the progressed Sun; however, we are going out of it; going out of the ether as it were, Neptune rules ether. For several years this influence has been operating from the 12th and 3rd segments of the chart; there has been a wave or avalanche of subtle propaganda. Neptune in the 12th—secret, underhand, undermining influences. The third house rules printed matter; literature; lectures; and so you have a perfect astrological picture, that is confirmed by physical facts. Ever since the advent of the Roosevelt administration, millions of dollars have been spent to distort our histories, pervert and twist historical data and events; in other words, a subsoiling and plowing up to make ready for the take-over by an alien group working largely through the British Empire, which in turn has already been taken over and assimilated by that same alien group.

For many years now, Pluto, the plutocrat, has been passing through the 10th house, symbolizing the Executive; the government; the controlling hand of the nation. This plutocratic control began even before the last world war; but the campaign was intensified when Neptune arrived at its place at birth, and squared our national Sun. Its position at birth shows that we are a gullible people; it indicates that from the very beginning of the nation, subtle forces have been at work to wreck us. And most certainly this checks with physical facts. Ever since the Revolutionary War, England has been gnawing at the vitals of the young Republic of the U. S. A.

This same transiting Neptune has now come up to a trine or good aspect to Pluto, which was 27 degrees of Capricorn when the nation was founded; and Neptune will be right over that point all through 1942. So, in my opinion, this is the year of the take-over; because next year Neptune forms another aspect, to another planet; at which time we shall have shaken off completely the effects of the Neptunian propaganda. The nation, that is, the patriotic American element, will see things as they are. However, we shall go a long way toward reality during the year of 1942; so in my opinion we are ripe for what all astrologers have been teaching about for

**6 copies of this issue for \$1.00; circulate them among your friends.**

many years: namely, the plunging of America into civil war when Uranus reaches the cusp of Gemini.

We can only touch the high spots here; but in our 'National Destiny' you will have a complete picture of the process of revolt, which will take place, irrespective of the personal opinions of you, or me, or anyone else.

Uranus enters Gemini in May, and of course will make itself felt for several months before. Note how this checks with our remarks on Mr. Roosevelt's chart for the April, May period.

And so to go back to the Neptune-Pluto combination; the picture indicates the final step toward a rigid dictatorship. But not until we hear the crack of the whip of the dictators, will we realize, like the rat which goes after the cheese, that we are in a trap.

Five or six years ago we gave a brief outline of the coming civil war, in our 'Destiny of the United States'. (See our Book List.) This is not a new discovery of ours, for others have stated the same thing for many years. However, we did place ourselves on record in 'The Destiny of the U. S.' So, in one sense, we will say that 1942 will be a year of realization or awakening; and the thing that will take place this year will be a definite cleavage in almost every organization and home in the land. The mind of our youth has been poisoned through radical, atheistic teachers and text books. This propaganda pumped into them during the formative years of their lives has had a deadly effect upon them. For proof, get a copy of 'Education for Destruction' by Bessie R. Burchett; in it you will learn how your boys and girls received an entirely different kind of education from that which you had in mind. We told you the story several years ago. Other books that we suggest that you read, are 'Crucifying Christ in Our Colleges', 'The Vanishing Virgin' and others by Dr. Dan Gilbert.

This process of education has produced a generation of rebels; rebels against the fundamentals of Americanism, of Christianity, and of the laws of life. Talk to the average college student, or even the student of high school age, and you will learn of that distortion. This is one example of the termites working through that Neptune in our 12th house. Then again we have had the dynamic Mars in our natal 12th for many years; and that is not a very constructive position for Mars to occupy, especially as it, too, has been crossing over Neptune at birth. It helped to bring us into the last world war.

Now the progressed Mars is coming up to an adverse of our natal Venus, and it will occupy that position and aspect, still in the 12th, for several years; and even thereafter it comes up and forms an ad-

verse to our Jupiter and Sun. There is going to be much discord in our nation; tremendous losses, of lives and property, with much sickness, for the next 7 years. Here again this checks, or coincides, with the 7 years it will take Uranus to pass through Gemini; again see 'National Destiny', for full details. That we are coming to a climax in our national affairs, is evidenced by the fact that the two powerful malefics, Saturn and Uranus, are coming up to a conjunction of Uranus, the iconoclast, posted in our 8th house but close to the cusp of the 9th. They have been passing through the 8th for the last 6 or 7 years, coinciding with the Roosevelt administration.

In a private business, Saturn and Uranus going through the 8th house of the firm or owner tends to indicate tremendous financial losses and bankruptcy; and that is exactly what we can expect in our national affairs.

|During the most of this year, we will have Mars, the 'planet of war, in our 9th house; it enters there in March. 'Note how it coincides with Roosevelt's chart. And watch out for fireworks when it crosses Uranus during the last 10 days of March; some terrible incident will take place. And so you see the timing is identical with the indications of Roosevelt's chart. At the same time Jupiter will be crossing our natal Mars, and during the month of May, toward the end of the month, Jupiter is square to Neptune; the nation will be swept off its feet, and I fear into a bloody conflict.

May is likely to be another dramatic month, with emotions swayed, for all this month Mars will be in the emotional sign of Cancer, and will have a very marked effect as it crosses our Venus, Jupiter and Sun, during the first 3 weeks of the month. And around the 20th it comes up and forms an ugly square to Saturn, also squaring our ascendant. And so the last vestige of peaceful life and neutrality will be lost definitely before the month is out; and the unthinking mob or masses will begin to reap what they have sown.

The passing of Mars and Jupiter through the 10th will be very stimulating; will release a terrific amount of emotion; emotion that we will regret later on. And this same month Uranus and Saturn step into the expressive sign of Gemini. It has been cramped, in the fixed, earthy sign of Taurus; now they will throw off restraint. Note the free expression of the people born with the Sun or Moon in this sign, especially if they have it on the ascendant—like your Editor. I will not go into the technical details, except to say the progressed Moon gives additional testimony along this line.

|Around the midsummer it enters our 6th house, the house of labor, health, sickness, the army and navy; briefly, it indicates tre-

mendous activity in the armed forces, especially when it squares our national Mars, which it does through the summer months; and for the next 3 to 4 years it forms a series of aspects that will drive the people down to fundamentals, through intense suffering. It would more than fill an issue of The Beacon Light to give you this in detail; suffice it to say I have no doubt in my mind but that we shall be full blast in a fighting war during the latter half of 1942.....It is only through suffering that the people will awaken to a realization; they will not arrive at a realization that they have been stupefied with propaganda, through the press, the pulpit and the lecture platform. And I would not care to be in the shoes of these false propagandists, many in the guise of religion and patriotism, such as fully 75 per cent of the British-Israel teachers. And these same false teachers will fold up and disappear; the jig is up as far as they are concerned, they have betrayed their followers.

Now as the progressed Moon squares our Mars, and later opposes our Netpune, we have a very similar testimony to that of the Chief Executive. There will be sickness of an epidemic nature, especially the latter part of the year. The common people will express themselves more freely, in spite of rigid plutocratic or dictatorial control. The pot will begin to boil over as the year comes to a close. One thing that will go a long way toward opening the eyes of the people will be the collapse of Russia and its Communist regime. The Administration will not be able to save its face because of the tie-up; and so we are definitely on our way to free the nation and to bring it back on an even keel of constitutional government.

Note Roosevelt's chart for July and August; here are the indications of our national chart. Watch your papers around the middle of the month as Mars opposes our natal Moon; tremendous excitement throughout the nation, caused by an event; and as the month draws to a close Jupiter on the cusp of our 10th afflicts Saturn. The indications for July and August are that there will be national mourning for someone of prominence.

Jupiter will continue to afflict Saturn practically all through the month of August, and Saturn will be right over our Uranus; and as the month closes we have Mars afflicting our natal Mars, which, by the way, is posted in the 9th, ruling foreign affairs and countries; and during the first half of September crossing that sensitive Netpune, another very dramatic, exciting period; sensational news.

Then again, Saturn will continue over our natal Uranus for the balance of the year. Incidentally it will be there until next spring and early summer. Such a conjunction as this, right on the cusp of

the 9th house, certainly indicates participation in a foreign war.

Now (this is by no means complete; and if space is found we shall try to elucidate a little more. I have merely tried to touch the high spots in the above, and to warn you to put on your shock-absorbers; not that you may fear coming events, that won't help you any; but that you may intelligently adjust yourself to events as they transpire.

### OUTSTANDING EVENTS OF 1942

The following is from notes, taken from a score or more of charts of outstanding individuals and lunations, and represents several months of painstaking labor.

**Destructive Strikes:** The labor situation is by no means settled: on the contrary it is getting worse, because our President has made no real effort to crack down on labor as he has on capital, or perhaps we should say business, for capital has been given every encouragement with labor; by that, I mean international capital. These two forces are gradually squeezing the life out of legitimate business, as a prelude to State Socialism to be followed by international socialism. This has been the dream of International Jewry for centuries.

Make no mistake: labor is thoroughly under control—that is, organizer labor in the two big unions. We are now as was Russia prior to the take-over, and France prior to her collapse. I find it impossible to speak in an optimistic strain as I view the picture: not because it is fated to work out, for fate is nothing but the result of forces we set in motion. We can apply the brakes at a ny time along the line; but nationally we have sunk to a very low ebb in our spiritual consciousness. Only tremendous suffering will bring our people to their senses and back to a spiritual anchorage. I repeat we have it in our power to stop the whole mess, if we would but awaken from our stupor.

**Mining:** In my opinion, mining will be the most profitable source of revenue during 1942: there will be unusual activity in mining this year, wonderful discoveries of rare metals, metals supposedly not in the United States. I have checked up my astrological indications with government records, and find that within the confines of the United States is every metal needed for national defense, in abundance. This will be one of the banner years in the history of the nation in mining, especially of the rarer metals, of which the general public knows little or nothing.

**Mexico:** A great deal of unrest will exist south of the border, in practically all the South American Republics, but more especially in Mexico. We expect to see an uprising before this year is out, and possibly the assassination of the President, or at least an overthrow of his regime.

**Earthquakes:** This will be a record year for earthquakes; but it is impossible for us to give you details, locations and dates, at this time, although we consider Southern California highly dangerous, in the large cities. Fortunately most of the quakes will take place out in the ocean.

**Alaska:** Alarming disclosures will be made of the enemy occupation of Alaska; bases of some kind will be discovered in isolated regions.

**Crop Shortage:** Largely due to freak weather conditions, farming will be rather hazardous. A few sections will have unusually good crops, but on the whole crops will be below normal. For several years we have warned of this condition, especially in our September, 1940, issue.

**Jews:** Intelligent Jews will see the handwriting on the wall; and there will be an unusual number of suicides and deaths through worry and fear. They, better than anyone else, know the seeds that they, as a race, have sown: the world at large is now being made aware of the aims and ideals of International Jewry. But in general the death rate for this year will surpass anything in the history of the world. People realize that they are caught in a trap, a carefully laid one, and they see no way out. Of course the tremendous slaughter in the war regions will account for most of it.

The people of America will become Jew-conscious to a serious degree, and much violence will result. Jews will begin to realize that America is not the 'Promised Land' for them, and will migrate to Palestine.

**Taxation:** Within two years, private property in the United States will be confiscated through heavy taxation; such is the price of indifference to the duties of citizenship.

**Climate:** Many crop failures will be due to tremendous climatic changes, almost the changing of the seasons, until the farmers will not know what to plant.

**Churches:** The people will at last learn to distinguish between churchianity and spiritual things; they will not flock to churches in the critical days that lie ahead, but will turn direct to their Creator.

**Prohibition:** Prohibition was repealed when Neptune entered Virgo. Neptune is now leaving that sign; and as a result Neptune's en-

try into Libra will again bring Prohibition; and this time, to stay. It will be real Prohibition, not the make-believe kind we had last time. (Hotel men please notice.) This change will likely come about toward the close of this year or in the early months of 1943.

**The War Zone:** Two years ago we told you that the war would last until the close of 1943. We also told you that the entry of America into the war would produce savage results from Germany, with the use of poison gas. Both sides in the conflict will use it, for they are all ready with their poison gases. We are inclined to think that England will use it first, with terrible repercussions.

**Russia:** Russia will be a shocking headache to England and her allies; and unfortunately we shall be included as such when the shock comes. Russia is only interested in her own affairs; and the lend-lease billion voted to this godless country will be devoted to fighting our own armies.

## PRESIDENT ROOSEVELT

This is a very critical year for the President; his chart is charged with high explosives. And if he handles that chart or himself recklessly, the results will be disastrous, for him and to the nation. He has in his hands more power than any other individual ever had in the history of the world; where former Presidents spent millions, President Roosevelt talks of and is handling billions. Today he is the most powerful man on earth, for good or evil; but I do not think he is fully cognizant of the responsibility of that power, and I fear that he will destroy himself with the power that has been entrusted to him, and that he will plunge the nation into a blood-bath, followed by sickness, poverty and bankruptcy. Of course I sincerely wish that I might be wrong, but the evidence does not point that way. A general summary of the chart shows an individual who is irresponsible; a man of unbounding egotism, as indicated by Moon in Cancer and Mars on the midheaven, square to Uranus, the iconoclast; and the latter is posted in the house of sorrow, the house of self-undoing. I am afraid he is going to pull the national house down upon his head; there is too much Mars and Uranus, and not enough balance of Saturn; a keen mind, but a tremendous amount of feeling, all out of proportion to the power he has; for instance, the Moon in Cancer on the midheaven, tremendous feeling and psychic faculties. This enables him to read the other fellow's mind and to anticipate his moves. Then Venus' conjoined with the Sun in the emotional 5th house, and as noted above the Mars-Uranus combination; and so I say there is a decided lack of balance; the man is not a constructive worker and it is useless to expect construction from a chart so irresponsible and destructive. Of course he has ability; but that ability only makes him more dangerous. He has never done a constructive job in his life—and I am speaking from his record—nor can he be expected to do a constructive job. It is not the nature of the man, and it is not his destiny or mission. Essentially he represents a wrecking machine, and he will wreck this nation unless constructive men and women stop him within the first ninety days of 1942. In fact I would say it should be done in the first 30 days, because the indications are that he is going to hog-tie those who would try to curb him before 90 days are out. I should judge that before 4 months have elapsed he will have set into motion tremendous forces that no earthly power can stop, once in action. He will endeavor, early in the year, to take the final step, as indicated by his pro-

gressed Moon crossing Uranus, and exactly trine or in good aspect to Jupiter, the planet of expansion, and also in good aspect to Neptune.

Now these forces will operate in the first 4 months of the year, and some of them will operate in the month of January as the Sun touches off this sensitive point, which it does in the first half of January, especially between the 5th and 15th; and unless he is tackled and stopped, he will complete his program on or before the same date in May. And so I am giving you a picture of about 4 months. Mr. Roosevelt will be like a man driving a car who suddenly sees an open stretch of road with somewhat of an incline, and then jams his foot on the accelerator, right down to the board. A more prudent man would let the machine run of its own momentum, for there is enough indication for him to do that; and he should have one foot on the brake ready for immediate action. But he will not do that; nothing but concerted action of the people will stop him from carrying out his course of action, symbolized by the transit of his progressed Moon as stated above. As I have stated many times before, I am not a fatalist, nor is astrology a fatalistic science. Only an aroused public opinion will check Mr. Roosevelt in the path of destruction to himself and the nation. If he carries out the indications of his chart he will set in motion forces that will destroy him; because later on we find the progressed Moon coming up to a square or adverse of Mars, right on his ascendant set in force the Mars square Uranus at birth, liberating the energy of this powerful combination; there is grave danger of assassination. And he will carry out the indications in his chart unless a superior force stops him; and that superior force can mean one of only two things: first, a thoroughly aroused nation with a concerted march on Washington demanding that the ship of state be turned around. That demand must come from tremendous pressure on your Representatives in Washington. It means impeachment, as provided for by the Constitution. Or, second, if the people fail to act I am satisfied that divinity will act, possibly through a stroke or something similar but it will be sudden, of a Mars-Uranus nature, for these are the forces operating.

Of course there are many other testimonies in the chart, but people repeatedly write me and say 'I do not understand your technical terms'. The astrological student can look the chart up for himself; I have merely emphasized the most potent influence, or influences working in his chart. Then we can not afford to ignore the transit of the powerful planets as they operate through his chart; and I

would like to draw to the attention of you astrological students the transit of Mars and Jupiter, and for a time also the Saturn-Uranus combination as they focus their attention on his Pluto. The last named operate within the 4 months I have mentioned, and indicate that all restraint will be thrown to the winds.

Uranus crosses his Pluto in January, February, March and April, exactly square to his Mercury in the house of health; and Saturn crossing that point in April indicates a man who is sick mentally and spiritually, with that combination reacting upon him physically.

Now Mars crosses that point during the first 10 days of March, stimulating, propelling; and at the same time we have Jupiter coming up to an adverse of his Uranus, lasting until the middle of April. And between the 15th and 25th of April it crosses his natal Mars; so it looks as though April will be a dynamic, critical month. The President realizes that he can not turn back of his own volition; he has made a pact with powerful, sinister forces who will not allow him to turn back. And so you can not expect relief from the President unless the line of action I have suggested is carried out. There are times, and often, when he would like to retrace his steps, but he is helpless; a victim of his own egotism and lust for power. There are no limits to what he has aspired to attain in the way of power; but there are grave indications that he has come to the end of his rope. Which of the two courses will take place, I am not prepared to say; I have arrived at my own conclusions as to what will happen but I prefer to paint the picture to show you the forces in operation and to leave the responsibility with you, for you are responsible, even though you choose, like Pilate, to wash your hands. And you will reap as you have sown; and the sins of omission are as deadly as those of commission.

In any event, April will turn the tide, one way or the other, for the nation, and forever close your opportunity for a solution of our national problems under Constitutional law. If you fail, I shall stand by to help heal the wounds of the bleeding nation; to help restore the balance; but I shall under no circumstances join the forces of Mars, or perhaps I should say the lower octave of Mars and Uranus. I am a builder, not a destroyer. Most of my life has been spent in building construction; from now on my life is dedicated to spiritual building rather than purely material building. And there will be great need for service in that direction.

And so, unless constructive changes take place by April—and I am very doubtful of this—there will be rumblings throughout the nation which are likely to manifest as the Sun conjoins Uranus the

last 10 days of May. And at this time Mars will be going over the midheaven of the President's chart.

And now the progressed Moon is coming up to a square of Mars. Unless he has been diverted from his program, he will be very elated during the months of June and July, for there are some very stimulating forces coming into action. As stated before, Jupiter crosses his natal Mars the first 10 days of June, Mars transiting his midheaven in the emotional sign of Cancer. Uranus and Saturn are in good aspect to his Venus, which by the way are posted in the 5th, essentially an emotional house; but during the latter part of June Mars enters his house of hopes and wishes, and begins to form some very vicious aspects; it squares his Saturn and opposes his Venus, a highly critical period for him; especially during the last 10 days of June.

And this is but the beginning of a combination of forces, although the Mars influence alone is sufficient to set them in motion.

During July the Sun is passing over his midheaven; usually he feels at his best this month, but this Mars transit can not be ignored, in view of the progressed Moon aspects, and so during the first half of the month opposes his Sun and squares his Neptune. This indicates danger for the President; it also indicates that his judgment will be anything but good, also a tremendous tug-of-war between two forces. A very grave period in his life is indicated.

During the month of August the Sun forms similar aspects, and during the last week of the month Mars will cross that sensitive point we spoke of in the beginning, Uranus in the 12th trine to Jupiter in the 8th. Now these July and August forces are affecting this group of planets in the 8th house, the house of death. This is highly significant; certainly he will lose powerful supporters through death; friends will desert him and it is very critical for his own person. So I do not hesitate to say that the summer months will be the most critical of his whole life. These forces have not entirely spent themselves, for both the Sun and Mars will be transiting Virgo and will cross the point of the progressed Moon adverse to Mars. Mars crosses that point between September 10th and 15th, and the Sun crosses it between the 15th and 25th. Should he successfully weather the storm of July, August and September, a new line of action will be followed; a clearer path is indicated, and Mars transits his first house, also his progressed Moon, and then the passage of Jupiter over his midheaven. Further testimony is Saturn in good aspect to his Sun, and even Uranus favorable to his Venus; certainly

a happier month than he has experienced for years. Wherever he may be or whatever he is doing, he is sailing calm, smooth waters; at any rate it is a breathing spell. During November and December Mars will be transiting Scorpio and his 2nd house, and it will be very similar to the months of July and August; certainly it indicates a very critical month, financially and physically for the nation, if the President is still at the helm.

The Sun will also be passing through there the first 3 weeks of November. Mars will continue there until the middle of December. However, as the year progresses we will give you in detail the month by month influences as they unfold.

## LINDBERGH

We have, during the past year, received many inquiries about Col Charles Lindbergh as to what we think of him, and so on.

Well, our private opinion is that the country needs more Lindberghs. We have received several different times for his birth, but not much range of difference; and so we have decided that 3 degrees and 38 minutes of Sagittarius on the ascendant is about right. Of course we don't claim infallibility, and there might still be a little variation, which would affect chiefly the cusps of the 12 houses.

But to come back to what I think of Lindbergh; I think he is still the man we acclaimed him to be when he flew the Atlantic. To me his chart indicates a mighty fine character, in spite of the smear attempts of the Administration. With the Moon conjoined with Uranus in the independent sign of Sagittarius, you have the n'th degree of independence and unpredictable action. These planets are both sextile or in good aspect to the Sun and Mars; and so you have a man of courage and independence of thought, a true Uranian, a model of the type of man who will make up the Aquarian age. The Moon in opposition to Neptune makes him highly sensitive, especially as it is in good aspect to Venus. This gives him a keen artistic nature; but that Neptune influence indicates that he should not allow other people to influence him, and he should have no partners, for Neptune is in the 7th. Partnership brings him sorrow. How well that has been borne out, the sorrow that has come to him indirectly through his marriage shows.

1942 will be a dynamic year for this young man. As the year begins, or to be exact the first 10 days of March, Mars, Uranus and

Saturn are all in conjunction, and they square his radical Mars; perhaps I should say that Mars squares his Sun during the first half of February, and will be the beginning of a stormy year. However, it is right near the cusp of the 7th house, and will bring him more into the open than ever before; Lindbergh is going to be news, and woe betide his enemies if anything should happen to him. It would give the nation the electric shock of realization, as nothing else has done; it would awaken the nation.

This Mars square to the Sun in February indicates tremendous opposition from the powers that be; smear and ridicule and abuse. His fine, sensitive nature will be hurt, but it will not change his course, in the slightest degree; America can depend upon this brave son. He is not a compromiser, he will not sell out. That is more than I can say of some who are close associates with him, for there are more Wendell Willkies abroad in the land, supposedly working for our interests. As a matter of fact, they have their eyes upon the chair in the White House; with them it is personal ambition. Incidentally, we shall welcome the birth date of men and women in the public eye, such as Ickes, Hopkins, Clark, Nye, etc. The correct time of day of Wheeler's birth would be welcome. We have Sec. Wallace's data, and hope to analyze him next month; in fact we have the dates of most of them, but not the time of day, the hour. It is very necessary that the people know the type of men who aspire to honor and leadership.

But back to Lindbergh; these squares to Mars will only stir up and give power to the excellent trine or good aspect to Jupiter. This comes into effect right after the square of Mars in the beginning of March, and is complete around the 6th of March; he will be tremendously popular at that time. This is followed by another reaction as Mars squares his Venus and Mercury between the 7th and 20th of March; and at this time Mars is right on the cusp of his 7th. There may be, as I said before, a slight variation. This will kindle his fighting spirit, and from now on he is right in the open and will be until the nation is restored to an even keel, because our Ship of State is going to rock mightily in the next 7 years, and it is my guess that Lindbergh will be in the thick of the fight throughout.

You see there are already 3 major planets going through his 7th from March on, Jupiter, Saturn and Uranus; and now Mars enters the arena. Mars is the great energizer, representing power—not necessarily to destroy, but it takes power to build.

As the month closes and April opens up, Mars conjoins his Pluto

and Sun; at this period you may look for a sort of coalition of power centered in Lindbergh, because you also have a trine or good aspect to his Sun, and Jupiter occupies the same position, and so the man will be dynamic at this time. And taken with Saturn and Uranus in good aspect to Jupiter, we have a force to be reckoned with. Lindbergh will be the most feared man in the nation by the common enemy.

Lindbergh has much in common with the immortal Lincoln; both had the Sun in Aquarius, and both with Sagittarius on the ascendant. Both were men of fine spiritual perception and rare courage, and with keen, well balanced intellects. Lindbergh has 4 planets in the 3rd, the Sun and Mars, and so his brain is a powerful dynamo. He is a real thinker.

Now this Saturn and Uranus condition will prevail all through the year, so it is not a splash in the pan, by any means; his fire will be steady and continuous, like the man himself. If ever there was a crusader for righteousness in our government, Charles Lindbergh is the man. I see no indications of personal ambition, no planets on the midheaven, although Saturn in its own sign of Capricorn is exactly trine or in good aspect to the midheaven, and also is Jupiter. And so he will get publicity through work instead of scheming; he simply can not help himself. Certainly Charles is not a publicity hound.

The dynamic influences in his chart coincide with those in our national chart. April is likely to be a hectic month for him, especially when Mars opposes his Uranus around the 10th and his Moon around the 18th. He will get some terrific blasts at that time, and possibly some attempt to injure him physically. But Mars trines its own place around the 20th. The chief danger, I believe, will be when Mars, in the month of April, opposes his Saturn, which it does as the month closes.

At the beginning of the month Jupiter opposes his Uranus, then his Moon; and so altogether the month of May will be a rather hectic one for him. But he continues to get the steadying effect of Uranus to Jupiter.

But what is the progressed Moon doing? Well, it also adds to the gaiety of nations, for as the year opens up we find it right over Pluto and in good aspect to his Sun; and around the months of May and June we have it exactly in opposition to Uranus. With the other afflictions we have mentioned, I would say he will be an extremely busy young man, and that he won't need a publicity agent, because he is a natural. Should he need one,—but I don't think he will—I

might apply for the job. I think I would rather enjoy it, for I have a keen appreciation of sterling character when I see it, and of men who put principle before expediency.

Following this influence is the progressed Moon opposing its place at birth, but in good aspect to the dynamic Mars and Sun. Again Lindbergh will be news; bitter opposition, smear, but every knock a boost. I would, however, advise him to be very careful about what he eats and where he eats at this time, because following this influence the Moon conjoins Neptune, which rules poison. This covers the closing months of the year, November and December, and possibly January of 1943. All through the year we have the progressed Sun coming up to a conjunction of the progressed Mars. That in itself is a dynamic and powerful influence, and inasmuch as it is adverse to his Moon and Neptune it indicates danger for him. I should not be surprised to see an attempt on his life; and this influence is likely to strike as it did before in the home; and so he needs to be very careful of the servants he hires. This again suggests poison, mental or physical or both; also intrigue and deception. Servants should be checked up on astrologically and through the handwriting. A name can be an assumed one; birth data can be false; but the handwriting, done in front of you, tells the story. I have found this very dependable, but I do like to check it with the chart. And I have yet to see a case where they disagreed.

Around the middle of June Mars opposing Jupiter indicates the free spending of money and tremendous physical strain. But to offset that, he has Jupiter in good aspect to Venus and Mercury the last two weeks of the month, and so no evil results are indicated.

During the first 10 days of July, Mars opposes his Sun, again a blast. But it is followed by Mars in good aspect to Uranus and the Moon; again a wave of popularity. And then another reaction is Mars opposing its place at birth; there may be legal repercussions for Mars is going through the house of law; possibly an effort to silence him through some legal channels. We shall see.

And so, in closing, I would say that Lindbergh will again become a national hero; his popularity will increase throughout this year. I would call him a symbol of the new order of things here in America when the New Deal is swept out of the picture, which it will be, when the reconstruction begins.

## NATIONAL DESTINY

We have received many letters of inquiry concerning the make-up of our new book, 'National Destiny'. Well, here is the Bill of Fare:

The Frontispiece is a picture of Washington at Valley Forge, kneeling at prayer in the snow; next a Foreword stating why National Destiny with The Modern Book of Daniel is presented at this time. Then we have an Essay on Representative Government, by John Stuart Mill, followed by a quotation from Thomas Jefferson, each taking a full page with border, and being definite links in the chain of the book.

This is followed by two-thirds of Washington's Farewell Address, which alone covers five pages, and is the meat of his address. The reading of this will show how far we have departed from the principles of the pioneer souls who established this Republic.

Next, we have another connecting link by John Adams, with the same theme of 'Mind Our Own Business'. Then comes 'National Destiny', briefly outlining the six Uranian cycles of our national history from 1523 and including that of 1942 to 1949.....This in itself is a valuable text for any astrological student; for it not only gives the astrological indications, but also the physical factors that will bring about certain results indicated by the planets.

This is followed by Lincoln's Call to Prayer, The Vision of Elder Hoag, and a 2-page cut of The Betrayal of America, the first of a series of three masterly presentations of our national situation.

Then comes a word of warning issued by Wendell Willkie during the campaign, when he said no man has a right to use the great powers of the Presidency to lead the people into war.

This is followed by Part II, The Modern Book of Daniel; one of the most remarkable prophecies ever presented to the American public, which blends perfectly with the other subject matter. Then we have the second 2-page illustration, entitled The Answer to the Betrayal, followed by Franklin's Prophecy, which has been widely circulated, and Franklin's Call to Prayer, a document little known to the American public. Next comes The Battle Hymn of the Republic, with 7 additional verses, after which is another remarkable prophecy entitled The Judgment of the Nations. After this, under the heading of 'Lest We Forget', we call attention to the 150th anniversary of the signing of the First Ten Amendments, known as the Bill of Rights, and reprint these Ten Amendments for convenient reference and study.

The book closes with a poem, 'God Save America', the 3rd of the

series of illustrations, entitled "America On the March", and a short article entitled "A Challenge".

This book is attractively bound in art covers, in white, with Red, white and Blue banding and American Shield. There is still time for those of you who live on the Pacific Coast, to order these for Christmas gifts. (If you live in New York, you may get them at Harmony Book Shop, 112 W. 49th St., or if in Chicago, at the Purdy Publishing Co., 1723 Stevens Building.) However, this is an attractive and instructive present at any time. The price is \$1.00, or 6 copies for \$5.00; the most sensational book of a decade. It will inspire, instruct and help during the next seven years.

"Another dollar; please renew my subscription to The Beacon Light for a few months. (I'm hoping you don't know what you're talking about but I'm afraid you may, so I must keep informed.) — — — —"

#### FROM A NEW CONTACT:

"My dear Mr. Kullgren: Read your article, 'Preparing to enter the kingdom of God' and am intensely interested in it. Somehow you seem to have caught the true meaning of the Aquarian era. This article has prompted me to align myself with your future writings; will you kindly let me know the nature of your magazine and anything else you may have written. I assume it is philosophical and astrological. With best wishes for your continued success. — —"

#### FROM HOLLYWOOD:

"Enclosed is \$1.00 for 6 months subscription to the Beacon Light magazine; a very delightful reading material, more power to you. — — — —"

#### FROM MINNESOTA:

"I received the sample copy of Beacon Light for August. I had written you for a sample of the publication. I found this very interesting and instructive on the great danger our Republic is in from the 'enemy within our gates.'

What an undreamed of nightmare, and almost unbelievable condition our magnificent country, with the finest form of government ever known, this side of the last glacial age, at least, has gotten into. And what a misfortune to the whole human race, in its upward struggle, it is to have among us such a diabolical tribe of the inflated ego complex as the so-called Jews. It seems as though there would be no trouble in any land today if it were not for these savage wreckers.

I have, at considerable expense in money and time, the last seven years, spread anti-New Deal material, including Edmondson's until he quit. Every dollar of about \$250 was a sacrifice. My income from this business has been less than common labor, far less. And its promotion to better pay has been held back by Roosevelt conditions, clearly. I can not possibly subscribe for the "Light" now, am in a tight place. But I can not quit spreading this danger warning among my fellow men, so for the enclosed 60c please send The Talmud Unmasked and the latest issue of The Beacon Light. — — — —"

#### FROM OREGON:

"We enjoy The Beacon Light very much, and wish I were rich so I could send you enough to pay for your help that you deserve, you are doing a great work for your country, and entitled to the best of this world's goods.

I hope and pray that God will send us a man brave enough to start impeachment against Roosevelt and his Jew bunch to get them all out of our government, that this country may come back to Christian principles.

May God bless you, and give you strength to carry on for God and Country."

## BOOK REVIEWS

## RELIGIONS BELIEFS AND TEMPLES FOR THEIR EXPRESSION:

By A. E. Partridge.

This little brochure was originally prepared as an address before the Canadian Astrological Association, some years ago. The subject of this is very close to my heart; I am first and foremost an astrologer. Perhaps not a very good one, but I love the science more than any other study; it put my feet on solid ground; it gave me a foundation. As the writer so aptly states, 'In all nations of all ages, the Zodiac has furnished the mysterious key to all religious beliefs and philosophies'. To that I say Amen.

We would not have the present hodge-podge religions of hundreds of sects, each claiming infallibility, if the fundamentals of astrology were taught along with the Bible. In the new order, the religion of the stars will be taught, and that will automatically eliminate the hundreds of fake religionists and self-styled leaders. The fundamentals of religion never change; they are based on inexorable laws. As we have many times stated, the Christian Bible is almost a closed book to you without an astrological background; for with an astrological background you can discern what the religionist misses entirely.

I hope I shall live long enough to see astrology lifted out of its present day corruption and desecration; for today it is dragged in the mire of sordid commercialism and worse. Look at the majority of astrologers who attend conventions, and are considered top-notchers. True, they understand the mechanics of the science, but their judgment is warped, because they obey their master's voice, as to what they can say. Astrology diverted from truth is dangerous; and that is the condition of the astrological fraternity today, with few exceptions. We shall continue to expose these debauchers of this great spiritual science.

And so to return to the subject of the review; the writer presents facts pertaining to this science as they relate to religion, especially of ancient times. I commend this brochure to the British-Israel group, because they will find that it ties in with many things they speak of in their literature, such as Stonehenge and Salisbury Plains. Stonehenge means more to the astrological student than to the present day religionist.

I care not how far you go back, you will find traces of the Zodiac in the relics of the people of yesterday, in the buildings and caves, because the Zodiac did not originate with man, it is of divine origin. One encouraging sign is that our orthodox religionists are nibbling at the subject. Of course they don't call it astrology.

I would suggest you get a copy of this, the price is only 25c; and then follow up with a book that is supposed to be out of print but is not, namely, The Witness of the Stars, by Dr. Bullinger (Rosicrucian Fellowship please notice). We can supply this volume. We also have just one copy of a rare, out-of-print book, printed in 1885, 'The Gospel of the Stars', by Seiss; the price of this is \$5.00.

## BREATH POWER, BREATH CONTROL AND EXERCISE: By Ernest J. Stevens.

This is another of the health series by Dr. Stevens, and is a condensation of a 6 course lesson series which sold for \$15.00. One must not judge this little booklet by its size, but rather by the meat it contains. The author makes the statement that correct breathing is the most important of all human functions. One can abstain from food for from 60 to 90 or even 120 days, and live; but only a few moments will suffice to suffocate one, so important is air. The author states that most sickness is the result of the lack of air, oxygen; and, that no more than 10 per cent of humanity breathes correctly, and that only that 10 per cent has a fair degree of health, and that slow, deep-breathing animals and people live the longest. For instance, the mouse breathes 150 times a minute, the elephant 6 times. An ant is 20 times stronger than an ox in proportion to its size, and consumes 8 times as much oxygen.

Health is going to be the most valuable possession during the next 7 years of

turmoil and strife. The sick man or woman has a false view of life, due to the poison in the system. Certainly this is the most valuable book on breathing we have reviewed up to date; not wordy or bulky, but concise and specific. The price is \$1.00.

**REINCARNATION WITH BIBLE REFERENCES, AND THE TEACHINGS OF THE EARLY CHRISTIAN FATHERS.** By Gloria Dare.

It is seldom that I review a book with the profound sympathy and pleasure that I do this volume, because the book is so fundamental to our way of life. We speak of being a Christian nation, and yet fully 70 per cent of our people ignore this, one of the corner-stones of our beliefs. Is it any wonder that in the realm of religion we have a Tower of Babel?

Reincarnation is not something recently discovered; like astrology, it goes back to the earliest records we have of man. Astrology, reincarnation, evolution, and what the Hindus call Karma—and which science calls cause and effect—together with the teachings of immortality, of which reincarnation is a part; these are the very foundation, not only of the Christian, but of all religions. Without these fundamentals they are another man made hodge-podge, of which we have too many already.

It is an indisputable fact that the Christian Bible, in both the Old and New Testaments, teaches reincarnation. It is true, some of it is hidden and obscure; but that is true of all great spiritual truths. This writer has emphasized the Biblical side of reincarnation possibly more than any other writer I know of. As she states in chapter 4, and as I have stated in my writings for more than 30 years, the early Christian fathers accepted and taught reincarnation for 600 years after the death of Christ. And it was only the taking over by the Church of Rome that stamped out this doctrine. Christianity, as taught today in our churches, is a bundle of inconsistencies. We are told that each soul is created of God and then sent into incarnation. Of course anything created by God must be perfect, pure and holy. Then they tell us we are born in sin: for instance, "Thou wast altogether born in sin".

Now these two statements do not hang together; this of course refers to a previous existence; for if we were created by God we would not be born in sin.

Jehovah said to Jeremiah (1:5) "... Before I formed thee in the belly I knew thee and before thou camest out of the womb I sanctified thee". And again in the Apocryphal wisdom of Solomon: 'I was an ingenious child and received a good soul; nay, more, being good I came into a body undefiled'.

But I could go on and on; the Wheel of Rebirth is a fact; and you can not reject it without rejecting your Bible. Pick up a dozen artsological charts at random; and in a few minutes you can tell the different stages of evolution of those souls. Hundreds of times I have asked for the birth date of some individual before meeting them; and when we met I found I had a correct picture of them in the chart.

And so I say this little book of Gloria Dare's will help you to understand the school of life; it will supply missing links in the chain; it will give you a religion that will stand any kind of test, because it is not only religion, it is science. It is giving you the fundamentals of life, something that works, irrespective of personal opinions. Just as exactly as the workings of gravity, so is the law of reincarnation.

The four seasons of the year, with their different aspects of plant life, are a perfect symbol of reincarnation; in the Spring all nature takes on a manifestation of life; it is born anew. It grows up and bears fruit after its kind; and in the Fall and Winter the appearance of death sets in. But again in the Springtime it takes on a new manifestation of life. And in the case of a tree it puts on another layer or ring; and so we can tell the age of a tree by the rings or layers.

And so I say, study this little book and the remarks I have given you; and it will replace your doubts and fears with knowledge—knowledge of the laws of life. During the last 35 or 40 years I have read scores of books on Reincarnation; this is the clearest and most concise and helpful book on this subject we have seen up to date. The price is only 50 cents.

## A N A T I O N   A T   W A R

Dear Friends:

The January Beacon Light was off the press before war was declared, in fact the dealers had already been supplied. Now if you will re-read our July 1938 number, 'Japan, Friend or Foe?', you will see that we accurately foretold just what Japan would do; see pages 28 to 36. We have a few copies of this number left, 6 for \$1.00; get 6 and pass them on to your friends.

I believe this war could have been avoided, had we heeded the warnings of subversion within the nation as contained in the voluminous reports of the Dies Committee. However, now that war has come, we shall do our best to unite the country in a common cause. This is no 'death-bed repentance' on our part. I am not ashamed of, nor do I recant, anything I have said in the past. As far back as two years ago, I told you the policy of The Beacon Light would be changed over night when we got to a certain point. We warned the nation what the result of national sins would be.

Obviously there is no point to continuing along that line, now that the die has been cast — it has happened here. Those of us who have been opposed to the Administration's policies are loyal, patriotic citizens. If the Administration is wise, it will try to enlist the co-operation of all loyal, patriotic groups throughout the nation, whose followers amount to several million. Any 'cracking down' for past criticism will split the nation wide open.

Furthermore, we must tear out Communism, root and branch, from the heart of the nation, as shown by the records of the Dies committee; because, to paraphrase Mr. Roosevelt, Russia is going to stab us in the back. Every Bible student knows that; it is also obvious to every realist who faces facts.

If I am to be penalized for my stand of yesterday, so be it, I am not a coward; I would willingly face a firing squad, I do not fear death. I am laying my cards on the table and notifying the authorities in this letter of my policy for the future: namely, that of urging national unity, that our country may not suffer defeat, within or without.

This war will have many surprises; the war with Japan will be a short one; and don't be surprised to find Japan our ally before 1942 is out, and Russia our enemy. And so I say don't be too friendly with Russia, she is going to betray us. You see, God is working in a mysterious way to balance the accounts of nations; this is Judgment Day, and all accounts must be liquidated.

We have delivered our message as to the termites within the nation; that phase of our work is finished. From now on, our mission is to heal and to soothe the bleeding hearts caused by this war.

The war with Germany and the Axis powers will be a long and bitter one, and will take all our resources in men and money; therefore we must be united. It will last about two years. But I believe we shall be at peace with Japan before 1942 is out, and that Japan will be fighting her ancient enemy, Russia. The fanatical hordes of Asia are likely to be drawn into the picture through the Axis powers.

But let me insist, that armed forces alone will not give us victory. We as a people must return to God, and to the observance of His laws. Had we stuck to them, we would not now be at war. War is a disease, the result of spiritual sickness, which is healed only by the purging of war. Men and nations are but puppets when God commences to balance the books.

I would urge you to read the prophecies of Joel, Isaiah and Jeremiah, and not forgetting Revelation.

We shall work for spiritual revival within the nation; we shall interpret, to the best of our ability, through the stars and the Bible, the great conflict now raging. We shall try to help you with your material problems, and to teach you the laws of God regarding health. The February number will be entirely different from our message of the past few years.

We have been giving you more pages than were justified by the small circulation, and have been making up the extra cost ourselves; so the February number will contain 32 pages only — unless someone is inclined to subsidize it.

We should like to re-print 'Thy Kingdom Come', of which but a few copies remain. This is purely a spiritual message of warning, not only to America but to the whole world.

All the world dictators have reached the crest of their power, and few if any will survive 1942; suicide and assassination will thin their ranks. And as a result, the people will lean more heavily on the arm of God. And this is very necessary, if peace is again to reign on earth.

And so, in the spirit of 'Thy Kingdom Come', we say, Watch, and pray unceasingly. Stand by your Christian Bible; by the glorious Stars and Stripes, the wonderful Constitution of the United States and its Bill of Rights. If you are loyal to God and your flag, the Father of all peoples will again bless us as He has above all other nations of the earth for 150 years. And so, my plea is, let us be a united people, with God as our Leader.

Prayerfully and patriotically yours,

December 15, 1941

William Kullgren

Copy of letter sent to our local sheriff, offering our services:

Atascadero, California,  
December 12, 1941

Mr. Murray C. Hathaway, Sheriff,  
Court House,  
San Luis Obispo, Calif.

My dear Mr. Hathaway:

I was away from home on a business trip, when war was declared; so cut short my trip, that I might be available for service in our national defense set-up, in any capacity in which your office could use me.

Of course you know I have not been in favor of the foreign policy of the Administration; however, we are now at war, and so we must all unite for national defense.

I have no fear of the outcome, Japan cannot possibly win; and the other two nations are largely exhausted with two years of fighting. But I believe it will take a year of united effort to get us ready for a decisive battle.

As a student of prophecy, including the Bible and Astrology, I will say that the indications are that the United States will come out on top; and so it is just a question of standing by our guns and fighting it out.

Fraternally yours,

William Kullgren

## GERMANY

**HITLER:** As one reads the newspapers, one is given to understand that Germany is all washed up; well, if astrology means anything, that is just wishful thinking, in spite of the propaganda put out by some of our leading astrologers whom I shall name, giving extracts from their recent writings if space is available.

Let us take a glance at Hitler's chart; during the next 12 months his progressed Moon, transiting his 2nd or money house and in the fiery, independent sign of Sagittarius, to a very large extent gives us the keynote of the outlook of his aims and objectives, luck and ill luck. As the year opens up, the progressed Moon is just separating from some very bad aspects, which were more than fulfilled in his Russian campaign where he no doubt suffered terrible losses in men and equipment. His road will be a little rocky in January and February, but watch him when the progressed Moon comes to a trine of Saturn, which it does around April and May; and you will find that Hitler is still in the picture, going strong. But let me make myself clear at this time; in my opinion, it does not matter who wins, the result will be the same, and so I am not speaking as a Hitler fan but merely interpreting the charts as I see them. The world is full of dictators but every one of them will be in the ashcan within two years, including the special brand we have here in America.

Hitler will make some notable conquests in the late spring and early summer. During 1942, his progressed Moon is in the money house in good aspect to Saturn in the 1st, and a good aspect to Uranus around the late fall, and closing with a good aspect of Mercury. Take note that Saturn is in his 10th house and Uranus on the cusp of his 1st. To me, those progressed aspects indicate the highlights of the year for him. I am not going to boil it down to a fine point, but merely to generalize; detailed accounts will be given in our monthly lunations.

Note the position of the progressed Sun and Mars in the house of the other fellow's possessions; and these planets are in conjunction, forming a powerful trine of Uranus, and coming up to a sextile or good aspect to Mercury. One planet is on the cusp of his 1st and the other on the cusp of the 7th; so I would say that Hitler feels very well satisfied with himself; that he knows what he is doing and that he is going to continue.

Hitler's and Germany's success is due to the following factors. First, they have powerful charts, none more powerful than that of the Third Reich among the various national charts, which is a de-

cided contrast to that of Russia. The difference is just as great between the charts of Hitler and Stalin. Second, the bitter memory of the Treaty of Versailles; and that is why the Germans are spurred on to fight—they know they will have less mercy or justice in a peace treaty than after the last war. Third, Hitler is a disciplinarian, from the word Go; note his Saturn on the midheaven squaring Mars and Venus, not much sentiment there.

And now for the national chart of Germany; we again find Saturn in the 10th, conjoined with the Sun and Mercury, and so you do not find powerful labor unions wrecking the country through sabotage. The keynote of Germany is efficiency; whereas the keynote of the so-called democracies is inefficiency. I offer Russia as No. 1 exhibit. Germany did not conquer France, she was conquered from within; the same is true of Poland, and to some extent Belgium, Holland, etc. The same sabotage is going on in England today, because Jews and Communists occupy all the key positions, as was the case in France under the Jew Premier Blum. Lack of space will not permit me to name these men, but I hope to in a later article. And here in America, anyone who has been in Washington will tell you it is a madhouse of inefficiency. Every ounce of energy, whether of men or money, is used efficiently in Germany, because there are no racketeers in the saddle, they face the firing squad. Hitler has had no hesitation in purging when he felt it was for the good of the cause. I am not excusing or condoning, I am stating facts. Senator Bob La Follette recently said a mouthful in one terse sentence, in reference to the Treaty of Versailles: "Hanging Hitler will not solve the problem that created him".

A bird's-eye view of Hitler's chart convinces me of several things: first, he will make popular concessions to some of the conquered countries. And in spite of some opposition, he has convinced a large number of the people of conquered countries that it was the racketeers in public office who wrecked their country, that made them impotent; and he will show decisively the Jew control. And so, no matter what happens, France will never again trust England or America. The same is true of Poland, who was betrayed, also Greece and Rumania; and all he has to do is to show them the evidence; and then he will say to them, in effect, These so-called democracies let you down—which they did. He will point to the Judaic Red control, and point out that they betrayed them shamefully; and that they, these democracies, are impotent to rescue these conquered countries even if they wanted to.

Now these arguments will sink in, in spite of wishful thinking to

the contrary. No army will ever dislodge Hitler from his European control. Besides, the decisive battle will not be in Europe; and after the decisive battle there will not be an army in the world, including our own, that can lick a postage stamp; the world will be faced with a general collapse; world bankruptcy and ruin. None of the flowery speeches of Churchill or Roosevelt will ever bear fruit; and so their record will not be spoiled: neither of these men ever made a success of anything except talk. The man who talks a lot is not a powerful factor in a battle; it is the close-mouthed, stern, self-disciplined opponent whom they should fear.

And so, in my judgment, based on these charts, this is the type of opponent we have to contend with; Hitler and Germany have had stern discipline all through life; Americans have had a life of ease in comparison. Roosevelt or Morgenthau never knew what it was to earn a dollar; the rest of the New Deal are cheap politicians who never earned anything they live by graft. Hitler came up from the people, he has had a hard life, as Saturn on his midheaven testifies. And the great similarity between his chart and the national chart indicates that he is the popular expression of Germany; not 100 per cent, of course, but much more nearly so than our own leader who to-day has a bare 15 or 20 per cent in favor of his program.

And so I give you a pen picture of the two opposing forces. France will squirm under the iron heel, but only stern discipline and suffering will awaken France; cosmic forces, or the law of cause and effect perhaps, is bringing France the necessary discipline lest she perish together. No individual, or country, can be in a healthy condition without discipline; and as I have already pointed out, stern discipline is the order of the day, first in Germany, second in all the conquered countries under Germany. The dry rot of decay had already set in, in every one of these countries; through discipline they will suffer, and learn. And rest assured that America will tread the same path before 1942 is out.

I believe that Hitler will permit a semblance of self-control, as much as they are capable of using without abuse; some of the former rulers will be restored to power, notably in Belgium; but I do not think Queen Wilhelmina will ever be permitted to return; not because of Germany's edict alone, but because the people resent the fact that she deserted them.

The old Europe is dead; and the suffering of the next few years will make it impossible for England or America to ever influence them again. They have a deep resentment against our type of democracy; they have already experienced it, and are suffering as a

result. And a large proportion of these people will realize that in spite of stern discipline, enforced by the firing squad, Hitler and Germany helped to liberate them from powerful tyrants. France wants no more Blums or Daladiers.

Before 1942 is out, Communism as a world power will be dead, with the exception of a remnant of it in England and America; the head of the serpent will be amputated, but you know the reflexes of a snake show signs of life in the body after the head has been removed; and so it will be with Communism in England and America. Hitler will fulfill his mission, namely, to strangle Communism; and history will accord him that acknowledgement. We have repeatedly said that in our opinion he was a divine instrument to inflict stern discipline on Europe; and so before 1942 is out he will have liberated Russia, from the Jewish banking control, and for the first time since the Czar was murdered a semblance of prosperity will come to Russia, even before this war is out. And long before the end of the war Hitler will march east, and Turkey and Iran will be under his control, and he will be making preparations for the last big battle. He may even have Egypt in his bag before the year closes, eventually she too will fall under his control; and then will come the decisive battle in the Jewish stronghold, Palestine. Tens of thousands of Jews will migrate to Palestine this year, thinking it a place of safety; cosmic forces drew them there through greed and selfishness, but they will regret their decision, because it will be the most dangerous place on earth for them; very few of them will survive.

Before the year is out the Pope of Rome will occupy very much the status of Petain of France, namely, a mouthpiece for his master, Hitler. The power of Rome is crumbling and she will be nothing but an echo before the year is out.

Now in the above outline, it is not a matter of personal feeling with me, I am merely an interpreter; and at the end of the year I am quite willing to analyze these statements and be judged by my record. This is the handwriting on the wall, as I see it.

Just one closing word about Hitler's chart. The progressed Moon indicates that he will gain a lot; but we must not ignore the fact that he will lose a lot, that is, he will pay a price for his victories. And this is evidenced by the position of Saturn and Uranus flirting over his Neptune and Pluto throughout the year. Heavy losses are indicated, and much sickness will prevail in Germany, especially in the first half of the year when Saturn will conjoin Neptune.

Now just a glance at the chart of the Third Reich. Briefly, it indicates terrific suffering for the people, especially in the latter half

of the year. People are weary; that is, the people at home; they are depressed, they would like peace. But as the year opens up the progressed Moon is in good aspect to Jupiter, fairly good morale; but as the year closes a definite change takes place, and there will be many who would assassinate Der Fuhrer if they had an opportunity. Incidentally, Saturn conjoined with Uranus is in the house of death in Hitler's chart all through this year; I am quite sure Hitler knows he will not survive the completion of this conflict; he knows that he will not enjoy the fruits of his victories. In that respect he is a little wiser than the rest of the dictators.

And so the position of the progressed Moon indicates a year of intense suffering for Germany as a nation; however, the position of Saturn and Uranus conjoined in the 1st house and coming up to some splendid aspects which will last for two years as in the case of Uranus, will insure the continuance of an efficient fighting machine and will continue to give success throughout the year. Jupiter, the planet of plenty, of expansion, will be in their 2nd house for most of the year; until August in fact. And during that period it will be in good aspect to Uranus. The full force of this will be felt in April and possibly in the early part of May, even though there is an adverse to Mars at the same time; and so, if the Russian campaign is not already finished, a decisive finish will be made at this time. In any event, Germany will make history during April and May. It is well to bear in mind that Uranus is the ruler of Russia and that Uranus is in the 12th house of Germany's chart, which looks like a secret settlement behind the scenes, the terms of which will not be made public.

Another important thing is, the progressed Sun of Germany is also in good aspect to Uranus; that is, it is now within orb and will remain so for the next two years, in the house of hopes and wishes; certainly I see no indications of defeat. Mars will be passing through the 1st house during the first 3 months of the year; that indicates a tremendous fighting spirit in the nation; and during that period it forms some splendid aspects. Again I say no indications of defeat this year. Everything points to April and May as being dynamic, and we noted the same indications in the charts of all the nations and the leaders thereof. There are indications that Germany will have heavy losses in the month of May, and that the public will never know to what extent. But there will be a reaction around the middle of the month, and much enthusiasm throughout the nation; but as the month draws to a close, during the last week, a terrific slaughter will take place, but no signs of defeat.

An important announcement will be made by the leaders of the nation, especially in June, the first week. With Mars favorable to Jupiter, 6th and 4th, a conquering army is indicated, and more territory will be gained. However, in spite of that, with Pluto in opposition to Mercury in the 4th, the civilian population is groaning in spirit. Nevertheless, Pluto is trine to the Moon; and so in spite of their suffering, they are standing by their leader.

## CIVIL WAR IN AMERICA

Before we analyze the charts of Russia and her ruler in detail, I want to give you a preliminary outline of what I think will happen within our own country as it relates to Russia and Germany. Our industries are working at high speed to produce war materials to defend bloody Russia, a nation which for 24 years has been a totalitarian enemy of American institutions. It is admitted that Communism has a large following in America; the Dies Committee has publicly reported between two and three thousand Reds in key government positions; and remember, this is not the small fry. Bear in mind that even the small fry must be at least pink to hold a job. I think our Federal pay rolls today are about 1 1/2 millions; I am quoting from memory and may be in error; if so it will be more, not less.

Now inasmuch as the heads of the New Deal are Red sympathizers, the lesser lights must follow the lead; and so when Russia collapses, and she will before the year of 1942 is out, things are going to happen here in America; the repercussions will be terrific in our national life. Under Hitler's control the Russian people will have a freer expression than they ever had under Lenin or Stalin, or even under the Czar; and so those who believe in Russia will continue to stand by her, and you will find that Hitler will have his substantial 5th column planted within our nation ready made and trained in the art of sabotage. Thousands of workers in defense plants are trained for sabotage; and whatever a man is trained for, he will ultimately express, whether it be in music or war. And don't forget that the first tenet of Communism is world revolution for the overthrow of the capitalist system. And so the fact that Hitler dominates Russia will not phase them. This element of which I have spoken, are not and never were Americans; such being the case they are highly dangerous to the best interests of America. They are comparatively peaceful now, at the time of writing this in November, because they think they are using us to further their plans for world revolution.

**6 copies of this issue for \$1.00; circulate them among your friends.**

tion by aiding Russia. Marshal Petain was our ally until France fell, and now he is poison to us. Mr. Petain is in France, but the Red army is here in America, and their leaders are in key government positions in most cases. Then again, Mr. Roosevelt has declared himself for a new order patterned after that of the Communist party; and so we have a time bomb planted within the heart of the nation. The timing is the fall of Russia; which I am convinced will be completed during the first half of 1942. The Com-mies will drop their pretense of democracy; the mask will be torn off, and they will talk about world revolution and the new order; and sabotage will be the weapon used. There are scores of Communist front organizations here in America, Friends of Democracy, Friends of Russia, etc. Those are the groups to watch. Again I say their leaders are in key positions in our government.

When the German war machine began its invasion of Russia, there was a notable drying up of strikes; the Reds were all out to defeat Hitler and save democracy, they made a complete somersault over night; and that is not the first one they have made, for they did the same thing when Germany and Russia, through their leaders came to a common agreement as to their objectives, in other words joined hands. When Russia falls, they will again flop, and they will reveal their real objective, the overthrow of the American form of government. In this connection, I wish you would read the complete Dies reports, and they are voluminous. Briefly, Dies submitted a report of his committee to the new Attorney General, Biddle, showing the entrenchment of the Reds in every department of our government, and pointed out that they will be ready for the coup on orders from Moscow.

And here we have the deadly parallel to France, that same type of Reds within the French government. They did not raise a finger in behalf of France when Germany began her drive; instead, they began to think of personal safety; many of them fled the country. The rank and file of the Communists in France are the saboteurs in France today; they are the assassins of the German officers. And as in France, so in America; the saboteurs would not raise a finger in behalf of the U. S., but would risk their life if necessary to bring about a revolution here in America.

Mr. Roosevelt and his official family are closely allied with this bunch of saboteurs and revolutionists. Look at what happened in the Ford plant when the C. I. O. seized control, when \$300,000 worth of dies were destroyed, and in the foundries molten metal was poured onto the floor of the shop. Was anything done about it?

Indeed, no; our President was thoroughly in sympathy with this act of sabotage, as evidenced by his continued support of the saboteurs. Mr. Roosevelt is afraid of John L. Lewis, because John knows plenty and is apt to talk. His half million dollar contribution to the Roosevelt campaign fund in '36 is one little item, and the reason why Roosevelt was re-elected in '36. Now since the alliance of this nation with bloody Russia, there has been a decided letting down in our vigilance on communistic infiltration in all channels of our life; government, industry, education, literature, the churches, youth movements, Negro organizations, the screen and stage. Every effort has been made to whitewash the bloody assassin of Russia and his followers. It is tragic, and at the same time it is laughable, the antics of the Reds, from the White House down, telling us what a nice boy Stalin is; what a wonderful Constitution they have. This has strengthened the hands of the enemies within the nation. The Communists are now Americans, and through their official organ, the Daily Worker, they speak of 'our' country, 'our' President, 'our' army, 'our' navy, 'our' defense, and 'our' people. In other words, they have already taken over; and it will take physical force to dislodge them. This 'our' does not mean constitutional Americanism, it means the Communist Internationale; and although Moscow will have been off the map as their headquarters, they will still continue to function; and so I do not hesitate to say Civil War in America is inevitable; because as in the case of Russia, then in Spain and France, the Reds are in control; and I am firmly convinced that America will go through the same experience that Spain went through. It is inevitable; the stage is all set, waiting for the rise of the curtain. May God help dumb, blind, stupid America! She is going to pay a terrible price. Of course, when the scales fall from the eyes of the people they will arise to the occasion and fight, whereas yesterday they were too lazy to work or vote intelligently.

Here, possibly for the last time before hell breaks loose, I am painting a picture that I see quite clearly. Millions of Americans are indulging in wishful thinking, and saying This is America. So what? This is not the America as founded by Washington and his co-workers, nor is it the America of the practical idealism of Lincoln; this is America that has sunk in degradation, whose sensibilities are so deadened, like a drunken man caught in a fire.

The vast majority have contributed to the above picture, and so that vast majority will pay a bitter price for the part they played, and in many cases for their refusal to heed the warnings and to aid the real constitutional Americans who tried to awaken them from

their slumber. When the screen goes up on this new drama of civil war and revolution, whatever slogan they use, do you suppose they will continue to let me talk this way? Of course my talking will not help you then; you will have only the memory of my warnings.

[There are still a few precious moments left for you to act. Cheap reprints from back numbers of The Beacon Light should be put out by the millions and distributed free. Obviously I can not do that, unless someone with substantial means awakens to the realization that if the present program is carried out they lose everything including their lives. It is too much to expect that such a miracle will happen. Only a well informed, intelligent awakened citizenry can save America, realization has not yet come. My messages of warning have been interesting, but they have not brought about realization; only suffering will do that.]

After writing the above, I came across the following in a news item of November 11th, which will give you some idea of what we are up against; 11 thousand Communists in one section of Ohio. Multiply that by the 48 states and you will have some idea of the number of Reds in this country:

"Reds In Cleveland C. I. O. Under Fire

Cleveland, November 11. Declaring that the major part of the C. I. O. in Cleveland was "Communist Controlled", Frank Jackson, special investigator for the Dies Committee, today revealed that the committee has found 11,000 Communists in Northeastern Ohio since last March.

Fourteen local strikes were found to be "Communist inspired" and 133 Communist 'front' organizations were discovered, Jackson said."

---

## RUSSIA

Russia under the Stalin regime is doomed, as we predicted in our outlook for 1941. The Army and Navy Journal of November 1st states that the Reds have lost 70 per cent of their coal, 60 per cent of their iron and 50 per cent of their steel capacity in the Ukraine. And cooped up in Leningrad are 18 per cent of their manufacturing plants. Within range of the enemy's guns, or already lost, are 70 per cent of their airplane factories. All in all, she has lost more than 2/3 of her industrial machinery; she is now unable to supply her army in the field; her lines of communication are such that no country in the world can make up this deficiency, not even 10 per cent of it. Roughly, at the best she can only supply 50 per cent of her needs for the army in the field, and that is putting a high figure

on it. It means, according to the above authority, that England and America must equip 1,125,000 men. We have not even equipped our own army, which is only a little over 1 1/2 million; and so on the basis of these figures, if Russia holds out until spring she is doing well.

Now let us see what the Russian chart looks like. At this writing the progressed Moon is in good aspect to Jupiter, indicating the help she is getting from England and the U. S., and so it is possible that she will survive while this is in orb. The next aspect of the progressed Moon comes up in the early spring, around April and May, and is a conjunction with Saturn in the 10th; and for the balance of the year she has Moon adverse to the Sun, opposing Uranus and afflicting Mercury. Uranus, of course, is in the 4th, indicating the nation lacking discipline and in a continuous turmoil. Just watch the individuals you know, who have Uranus in the 4th; the home is a continual battleground whenever they are at home. And so this is the Russia we are asked to aid and defend.

The collapse of Russia will, in my opinion, be final when this progressed Moon crosses Saturn; and will be followed by far-reaching changes within the nation, revolutionary changes. And Russia will then experience what will prove to be a benefic discipline, because the people will be brought down to fundamentals. They are irresponsible children, and must be treated as such for their own good, and although the discipline will be very severe, the Russian people will be far better off under this new control. And, before the end of this year, Russia as a nation will begin a new chapter in her history. The aspects following clearly indicate that the change will be beneficial to the Russian people.

The position of the progressed Sun does not offer any aid, for it is now in opposition to Jupiter in the 2nd and 8th houses, a clear indication of heavy losses of life and property. In addition, for the next 2 years the progressed Sun will be square to the Moon, indicating that the masses must adjust themselves to a new order of things; the Moon represents the people, and the Sun the administrator or government. As the year opens up, and coming into completion around the critical months of April and May, we have Saturn and Uranus conjoined and coming up to an adverse of Mars, and this continues throughout the summer months. This influence functions in the house of death; a heavy slaughter is indicated of her army, for Mars is the ruler of the 6th, indicating the fighting forces. And with such a powerful affliction of two major malefics, things are bound to happen. It indicates an iconoclastic war machine against

them.

We have repeatedly drawn your attention to the months of April and May; in the month of April Jupiter comes up to a good aspect of Uranus; which as stated before is in the 4th. This is right on the cusp of the 9th house; to me this indicates a benefic change in the nation, a foreign power taking over; 9th and 4th houses involved. The people at home will benefit by this change, but I do not think it will aid the armed forces, they will continue to be used as cannon fodder.

The transit of Mars during the first 10 days of March when it comes up and squares its place at birth, indicates a time of slaughter. And the Red army will make one of its last stands as it crosses Jupiter on or about the 23rd. They may meet with temporary success, but this is followed by an adverse to the Moon, and so the last week of March indicates losses and defeat for the Russian war machine. If still standing intact, they are likely to get considerable aid through the air on or about April 10th; certain reinforcements of help of some kind is forthcoming later on in the month. It looks as though her allies will make a heroic attempt to save her from defeat. Of course this month the Sun will be going through the 6th house of Russia's chart, aspecting 2 planets which will bring help, Jupiter and Uranus. But the month of May is a very bad one, the Sun transiting the 7th and 8th houses, and emphasizing the very vicious cross involving most of the planets in this chart. This month will likely bring the finale if it has not already taken place. Mars, the ruler of their 6th is in Cancer, the sign of its fall and in Russia's 9th. Jupiter is now coming up to an affliction of Venus and Pluto, also in the 9th; and of course the Saturn-Uranus affliction to Mars. And then the progressed Moon is now right over Saturn, coming up to an affliction of the Sun; and so it looks like a change of leadership for Russia not later than this month.

July will be a very dynamic, and I may add, tragic month for Russia, for we now have Mars transiting Leo and the 10th house of the chart. The country will not be united, by any means, for there are plenty of signs of internal dissention; watch your papers around the middle of July as Mars opposes Uranus.

**STALIN:** Now just a word about Stalin. If I were choosing an ally, I would choose one with a little better chart than that of Stalin. Hitler may be all that they say about him, but in comparison with Joe he is a Sunday School Saint. And as far as the year of 1942 is concerned, the testimony is very similar to that of the national chart of Russia. If Comrade Joe remains in the picture beyond

the late spring and early summer he will be nothing but a rubber stamp. The chart itself is not a very happy or constructive one, in spite of the fact that he has Jupiter in the 4th. Look up your text book on that point; but, Jupiter happens to be right in opposition to Uranus, which puts an entirely different aspect on it; and it is within orb of a square or adverse to Mercury. These three planets will be very much in action this year when the Moon comes up and squares Uranus and Jupiter, which is like putting a match to high explosives.

Here again we have the May-June period emphasized, for his progressed Moon crosses that point. Then at that time the transiting Sun will oppose his progressed Moon and square the other two planets. The focusing center of this is as the month closes and June opens up, May 29th and 30th. Mercury also crosses that point, and so there will be plenty of dramatics for Joe as the month of May closes, and he will more than likely be toppled from his throne at that time. The houses involved are the 1st, 4th, 7th and 10th, the four cardinal houses of the chart. The least one can say is that there will be tremendous changes.

There is likely to be somewhat of a prelude in the month of March when Mars touches this sensitive point, which it does during the last 10 days of the month. His progressed Sun is in his 4th, and coming up to a square or adverse of his Mercury; again I say Joe is a very much worried man. There are many other indications in the chart which we haven't the space to enumerate; but one can not overlook the progressed Mars exactly on this sensitive point, squaring Jupiter and Uranus in the house of partnership, a clear indication that he can expect practically nothing from allies or partners. Then again his progressed Venus in the 3rd adverse to Neptune, and last but not least Mercury trine to Venus which is posted in his 1st house, show that Brother Joe is thinking of peace; he is visualizing, and I am quite sure that he is going to compromise with his enemy. And then there will be some red faces in the camps of the allies. England and her allies have been winning many battles on paper, but unfortunately it is necessary to win them on terra firma or on the ocean.

## JAPAN

As we write, the indications for war between this country and Japan look inevitable; but if it comes, it will be a very tragic thing for both countries. A comparison of the charts indicates that Japan could not win in the end, but in spite of a lot of wishful thinking

here in America, it would be a costly and tragic mistake for us. Japan could not afford to bring war to our doors, because it would be spreading out her navy and merchant marine too thin. A battle-front of 7,000 miles, is a long one; and by the same token that is the kind of battle-front the American navy would have, against which Japan could conduct submarine warfare.

But the most serious problem would be a question of supply ships. This country has stripped itself clean; handed out cargo boats wholesale to Britain, until today our merchant marine is but a skeleton of its former self. It would take every ship in the merchant marine to convoy supplies to keep our navy in action.

But, we are already involved in the war in the Atlantic, which has taken fully half of our navy, to say nothing of the 50 destroyers we gave Britain; and so we would start a fight with one of the strongest navies in the world, with only one-half of our fighting force, and the battle-front 7,000 miles away. And so Japan would not be fighting a first class power but a second class one. It is true that the Japanese are not in any condition to go to war with America, nor does she want war with America; but the Secret World Government desires it. The question is, Why? To me it is quite plain. The wealth of the United States is being dissipated all over the world; we are in no way prepared to go to war with anyone, because as fast as ships and munitions and supplies come from the factory they are shipped to England, Russia, China, Africa and what have you. Our own army has not yet been supplied with the necessary equipment. It looks to me as though Uncle Sam is going to be easy pickings after we are bled white.

What is our stake in China, that we should stick our neck out? For that matter, what is our stake in Europe? And in heaven's name, what have we in common with bloody Russia? I do not doubt but what Japan would like to take over the United States, but that goes for all of them. But it looks as though that plum will be reserved for Britain. And that is why our resources of men and material are being scattered to the four corners of the earth. Japan is and has been our best customer, England always our bitter competitor; and yet we would fight Japan because England tells us to.

We want to fight Hitler, according to the press and the New Deal; but if we declare war on Japan, that is the greatest aid we could ever give Hitler and his army, for in effect he has defeated 50 per cent of our fighting forces.

And suppose we did fight Japan, and we won; we couldn't hold what we conquered; then again it is against the best interests of the

nation to build up a world empire, following the trail and aping the empires of yesterday that have gone down in ruins because of their greed. If we become a world empire, the American system of government is gone, and the Torch of Liberty and freedom will be taken from our hands and carried by some other nation.

And at the end of a victory with Japan, suppose England should decide that this is the time to take back under her wing the rebellious American Colonies? Frankly, I believe this is the real object of it all; it doesn't make sense any other way. Even the wealth of America will not stand the spreading out that the Administration has planned for our fighting forces. Have we gone mad?

Here we are denouncing little Finland for defending herself against Russia; Finland, one of the few real democracies. But we heartily approve of China fighting Japan. It seems to me it is time that Uncle Sam sobered up, for only a drunk would challenge the whole world to fight at one time. Rest assured we would not be interested in fighting Japan were it not for Britain's investments and possessions in the Orient. And so I say if we fight Japan we will be the best ally that Hitler has had up to date.

And then again, while all this is going on, what do you suppose will happen within the nation? Civil war, inevitably; and armed forces would quickly cross from Canada and up through Mexico, so these forces would likely be British; who else could it be? for she is the only nation who has the shipping to bring troops to our shores. You can not fly an army by air, anti-aircraft guns would pick them off as fast as they arrived, because they must land. Unless a saner policy prevails at Washington, America is in grave danger of walking the plank. At present we are interested in saving the world for democracy, whatever that means. As far as I am concerned, I am only interested in saving the Republic of the United States of America. But we can not do this and dissipate our resources as we are now doing.

I am convinced that England is interested in the wrecking of both Japan and the United States, because of the plan of world domination that is hers. I had often wondered, as I read Washington's Vision, who the enemy was that would invade the United States. To put aside visions and face reality, the only nation capable of carrying out that program is England. She has access to all our secrets and resources; she has seen to it that we deplete ourselves in her behalf; she now possesses most of our merchant marine, without which no navy can function; and don't forget, England has a large army within our nation, working and fighting for her right now. If this

nation had only heeded Washington's Farewell Address, the present appalling conditions would not and could not prevail. And by the way we are printing the principal part of this Farewell Address in our book, *National Destiny*, because the average American is ignorant of the contents of this historic document.

Before this war is over, we shall be right in the thick of things, and it will be too late for me or anyone else to give further warnings. As the Hon. Stephen A. Day says in his book, 'We Must Save the Republic', and Hon. Thorkelson in his book, 'Rescue the Republic', there must be something more than talk if we are to win out.

For the life of me, I can not see any other potential enemy apart from Britain and her allies. Analyze the whole New Deal scheme, including the St. Lawrence project now being jammed through, and it all dovetails and sums up to a complete, well laid plan.

As I glance at the chart of the Emperor of Japan, I see nothing that leads me to believe that she could win. On the whole, the picture ahead for Japan is a very black one. Death will strike, hard and heavy, in the royal family. She will experience the worst earthquake in the history of the nation. If she fights with America, she will lose. And, should she win, she will have to whip Russia, then controlled by Germany.

Again I say, with Britain standing on the sidelines, who stands to win in this world conflict? And there is only one answer: The Jew controlled British Empire, now completely controlled by the Synagogue of Satan.

During the coming year, I am going to give you a lot of proof in that direction, providing you provide the sinews of war for me to continue, because our task will be increasingly hard and dangerous. Saturn and Uranus are now in the 6th house of the Emperor's chart. This doesn't point to very good morale among the nation's fighting forces. Neptune is in the 9th ruling foreign powers and square to the Emperor's radical Neptune, which, by the way, is posted in the 7th, representing the enemy. Certainly it indicates disaster at sea. Even the benefic Jupiter in the 6th the first half of the year and in the 7th for the balance, is not going to help, because of the adverse influences it forms. The progressed Sun in his 6th, afflicting his Moon in the 9th, sums up to the results indicated above.

Of course there are a few bright spots in the chart, but not bright enough to be of any practical help; Japan will have to fight alone. Nor can we see much help from the position of the progressed Moon, now passing through his 3rd, for it afflicts Uranus, posted in the 12th, and Pluto in the 6th; that is not good for a fighting force; and

then it opposes its radical place at birth. And so you see neither Japan nor America will gain by this conflict; but most decidedly Britain will, for she will have the only first class navy in the world at the end of the conflict, if it takes place. The same is true of the merchant marine; Japan has a powerful fleet at present; we would very obligingly remove this competition for Britain. With England it is 'business as usual', and she is supplying the world with merchandise, some of it from raw material supplied her under the lend-lease bill.

I hope this warning will burn in letters of fire so that you can never forget it. It sums up to this: The British are coming again, for it is a physical impossibility, according to naval and military experts, for Germany to send armed forces to our shores.

FROM AN OLD FRIEND:

"... Was greatly relieved when the Beacon Light finally arrived to assure me you were sticking with your job."

FROM SAN FRANCISCO:

"Please mail 6 copies of the February, 1941, number of The Beacon Light. It is remarkable and astounding in presenting the facts that so long have been kept from us. I want to pass these 6 copies along, so as many as possible can become acquainted with the truth of things, if it is not already too late.

Very gratefully yours, — — — "

FROM LONG ISLAND:

"About 4 weeks ago we sent for 12 Beacon Lights, but instead you so kindly sent 24 copies in all. Those 'extra' copies we sold to friends and acquaintances along with the newer issues, out of this we realized about \$2.00, which is yours with money order enclosed. Some people are willing to pay, while others are more 'Scotch'.

Mr. K—— has received his copies also, and has passed them on to such people who seem to be receptive for such writings as The Beacon Light offers.

We are looking forward with great interest, to receive each new issue of The Beacon Light. Even if you do not receive many letters of encouragement, your readers are wholeheartedly with you in your lone fight for the preservation of America for Americans.

Wishing you continued health and success. — — — "

FROM WASHINGTON STATE:

"I have received and read your August number of The Beacon Light and think it is wonderful, so I am enclosing 50c in stamps for two more copies. — — — "

FROM CALIFORNIA:

"... You may send me another copy of the October Beacon Light. I think it the best one you have put out. Am now anxiously awaiting the November number, to be assured you are not giving up the fight; I don't see how we can get along without it. . . . "

AND THIS FROM OUR 99-YEAR OLD FRIEND IN HOLLYWOOD:

"It's the Beacon Light, the shining light  
That helps us in this world's sad plight.  
The truths it's told, are good as gold;  
We should not its support withhold.  
But be thankful, night and day,  
And pray! that its bright light may shine for aye."

## ENGLAND

First, we will give you a bird's-eye view, based on an analysis of a dozen or more charts among the leaders of the British Empire; then I will give you as much detail as space permits, of some of the charts. )

To begin with, people want to know how long the war is likely to last. Well, in my opinion it will last from 1½ to 2 years; and toward the close of the war you will find Edward, the Duke of Windsor, in a very prominent position, outshining his brother, the King, George VI. This in fulfillment of my prediction when he stepped off the throne, at which time we said that when the British Empire is fighting with her back to the wall Edward will be called back into the councils of the nation. Edward's chart indicates that the time is close at hand. If I don't have space to enlarge on this chart in this number, I shall touch on it at a later date.

The principal charts to consider in the affairs of the Empire are those of the King and the Prime Minister; then there is the national chart of 1801. And as we balance these charts, I can see no notable succsss for the British Empire under Churchill's leadership. There is tremendous power and driving force, but other important factors are sadly lacking. There are indications of at least one death in the royal family this year, and this is apt to be a woman, I should say Queen Mary, mother of the King and the Duke of Windsor. And in my judgment there is apt to be more than one death.

In a general way, in spite of all the help that Great Britain is getting, it will be a hard year for her; everything will not work out as planned. There is likely to be a decisive battle in the Mediterranean waters, and perhaps for the last time Italy will inflict serious losses on the British fleet. At the close of this war, instead of England controlling the world, she will have lost, in prestige and material power.

You see, there are two forces at work; one the secret world government now in control of the Empire, the anti-Christ; and the other, the great spiritual forces under God Himself. Those two plans conflict, for they are diametrically opposed to each other; but the Synagogue of Satan can not win, although its power today is stronger than ever. International Jewry, through the British Empire, declared war, and set in motion a Juggernaut that will disintegrate that Empire. It is true they talk so much about God and the spiritual forces; but God doesn't play any part in the councils of the nation today, because the anti-Christ is in charge; so how can he? If the

English people were wise, they would rise up and clean house; but they have sunk so low in degradation; the British Empire is a shyster nation, for all ethics and principles are thrown to the winds. In my judgment, the English people are already disillusioned; and I base this not only on the analysis of the various charts, but from the reports we get direct. Today there is very little difference between the governments of England and Russia, the pattern is the same in both cases; the same hand holds the reins of both. In fact, I would go further, and say all the armies of the world head up into one control; all the present day leaders are in the saddle because of Jewish influence.

We showed you in the number on Germany, in 1938, that Jewish money put Hitler into power. The same is true of Mussolini and Stalin; and there is pretty good evidence that Hitler's father was a Jew. Remember, Herr Thyssen, the Jewish industrialist, was Hitler's angel. Read your number on Germany, December, 1938.

And so the purpose of this war is to consolidate the gains of the invisible government of the world; their plan is to set up a world dictatorship, with puppets in each country, such as they already have. And now the United States must be brought in, under the guise of national defense, national emergency and making the world safe for democracy. America is to be dragged into the picture so that they may destroy the old landmarks of our national life, our Republic. The Good Book says, Destroy not the ancient landmarks; yet we, supposedly a Christian nation, are permitting this to be done.

Eventually your home life will go, under that international control; so not only will there be no national existence, but no home life, no home, simply a free-for-all, as in Russia. That is the picture, the plan, according to the present trend.

To go back to England; she should, and would, sue for peace tomorrow, were it not for the Jew control. The secret world government has a big stake, it is none or all for them; their ill gotten gains throughout the world are at stake, and so they will fight on until the Christian world has almost exterminated itself. And only an uprising of the nations of the world will save us from extinction. During the year you will see signs of this in Europe, and you will see signs of it in America. The conquered nations of Europe have been told many fundamental truths regarding Jew control, and so they are bitter against England and America; but they have not yet discovered that even Hitler is but a figure-head. There is plenty of evidence to substantiate this claim, but it would take a lot of acreage to cover the ground; suffice it to say the whole world will be a

**6 copies of this issue for \$1.00; circulate them among your friends.**

battle ground before this year is out, in order that the invisible world government may consolidate and complete their control of the world.

And so the issue, for each country, is nationalism versus internationalism, and each country must solve its own problems. When there are enough courageous, God-fearing men in the various nations, the spiritual forces will aid them; but I see very little hope of this in England; England will sink to the level of centuries ago before she became a world power. As we told you two or three years ago, the British Empire is disintegrating; see our October, 1940, number, also the August, 1940, issue.

The King of England today is but a dummy, a figure-head, he has no real power; there is a gun at his ribs at all times, and he must obey, or else—. Re-read our August, 1941, number, *The Bank of England and Its Control*, which will give you some idea. If England were a God-fearing nation, as she claims to be, the picture would be entirely different. Today, the British Empire is the most dangerous factor in the world; millions will be slaughtered because of her efforts to consolidate the illegal gains of the invisible world government.

**CHURCHILL:** Now just a word about Churchill; I do not consider him a winning horse. Of course, like Roosevelt and the other dictators, he is nothing but a figure-head; he, too, carries out orders, or else—. If the birth data given for Churchill is reliable, I would say he is a wrecker and not a builder; we are using a chart giving 15 degrees of Scorpio on the ascendant; I think this chart fits him pretty well. Uranus squares that point from his midheaven, quite similar to our own dictator's chart in many respects. He is an adventurer; in the days of Drake he would have been a pirate. Churchill has some very vicious influences coming up in his chart this year; and if he remains in control as Premier he will make some further bad blunder—and his life is full of them, too many to enumerate.

The second-hand of the astrological clock, the Moon, forms some very vicious aspects in 1942, and I doubt very much if he will remain in the saddle. You see he has Saturn and Uranus in opposition at birth, and the time-marker, the progressed Moon, liberates the energy of those two planets, and it comes up and conjoins Saturn, followed by an opposition of Uranus; certainly the sparks will fly. This man is inwardly panicky, or will be when these influences come into action. I believe he is riding a horse that will throw him, I can not see how he can remain in the saddle. The very least one can

**6 copies of this issue for \$1.00; circulate them among your friends.**

expect is tremendous changes in his life, but it could easily be the last change. The main point I want to emphasize is that England can not win under his leadership, even though he had the resources of the whole world at his command. If he should survive these vicious influences, he will take on a new lease of life as the year closes, with the progressed Moon favorable to Mars; and later on, in '43, to Jupiter. The question is, can he remain in the saddle that long? There is grave doubt in my mind. However, if he does, a tremendous slaughter is indicated. There are other indications that he will receive a terrific bombardment, because Saturn and Uranus are coming up to and pounding his radical Moon and Sun. He will begin to feel this very strongly in the month of May; and as this influence lasts for two years, the question is, can Mr. Churchill last that long? I doubt it very much.

These influences are close to the cusp of the house of death; how close we do not know, because it is a question as to how dependable his 15 degrees of Scorpio is; and so one can not afford to be too dogmatic when one is not sure of the foundation. But certainly these two combinations will give him a terrible punishment, and I doubt if even his iron constitution can stand it.

And so, if we take Churchill's chart as the deciding factor of the British Empire, the picture is not a very pleasant one. Mr. Churchill will have considerable trouble in holding in line some of the allies, members of the British Commonwealth; some of them are beginning to get their eyes opened, and there are rumblings of an upheaval. As the year opens, he will feel very cocky, as he has for the past year with Mars going through his 5th house. Mars has formed some powerful benefic influences in his chart, but they are now gone with the wind; as the year opens up Mars opposes his Jupiter and conjoins Neptune in the 6th. This is bound to affect the morale of the fighting forces.

He still has some powerful support from Jupiter on the cusp of the 8th; but the month of February Mars also touches off those sensitive points I spoke of regarding the progressed Moon and Sun. February will be a very rocky month for Mr Churchill; squares his Saturn the beginning of the month and Uranus around the 5th to 10th. This might easily throw him out of the saddle at this time; if he survives this, the next hurdle will be when Mars afflicts his Sun and Moon around the middle of March, lasting say from the 15th to the 25th. If he weathers that storm (and whether he does or not, those will be very trying periods for the British Empire) he is now heading for an even more severe test, for in June Mars en-

ters Leo, and will oppose his Saturn and conjoin Uranus; and will of course touch off that progressed Moon influence; and as it conjoins Uranus it opposes his progressed Sun, quite a combination to laugh off. And so I say the last two weeks of June will be a hard period to live through. During this period he will not be so much concerned over the safety of the British Isles as he will about the issues of the foreign battlefield in the east, for that is where the issue will be settled.

And so we see the first half of 1942 will be a very severe drain upon his health, that will shake to the foundation, even an iron man; Mr. Churchill is battling with an invisible force, and he is beginning to realize it: that his boss is not all-powerful; that God has other plans and that He is in control. Atheistic materialism has challenged God and it will take a tremendous slaughter to settle the issue; the Battle of Armageddon, in fact. What fools these mortals are, to think that they can challenge the Supreme Ruler of the Universe; but that is what they are doing, and there can be only one result; it is like fighting a buzz-saw—you get badly chopped up.

If Churchill survives the first six months of the year, we shall have more to say later on, provided of course that we are still permitted to talk freely, as the Bill of Rights empowers us to do. But I must go on with the forecast for there are other charts I want to touch on, and my space has already been pretty much taken up.

**KING GEORGE VI:** It is very necessary to take at least a glance at the chart of the ruling monarch of the British Empire, because it will reflect in a measure, even though he is not the real head of the nation, the happenings of that Empire. The King has a much stronger chart than Churchill's; it is a powerful chart. Essentially, George is a man of peace, with Libra rising and Venus the ruler posted in the 1st; of his own volition he would never want to fight. However, if he had to he could put up a pretty good fight, and more than likely win with the powerful Jupiter posted in the royal sign of Leo on the midheaven and in good aspect to Mercury and the Sun on the cusp of the 3rd—an indication that the children of the Empire would help him; powerful fraternal bonds. If George were really and actually the monarch of the Empire there would be no war, for this young man is an idealist; peace-loving and a born diplomat. But as we stated before, he is not the real ruler or head of the Empire. The war is a terrible punishment to this man, for he is extremely sensitive; quite a contrast to Churchill.

During 1941 the progressed Moon formed some powerful benefic influences; but the influence for 1942 is not quite the same; there

are definite indications of the death of a woman, probably his mother I would judge, as '42 comes to a close; during the first half of the year he will have a powerful influence of the Moon to Mars; from then on things will develop, tragically so, and lasting right through 1943, at which time we judge the war will come to an end. All this year his progressed Sun will be in opposition to Jupiter, 4th and 10th, indicating territorial losses and severe damages to the homeland; death and disaster around him. George would like to have peace, and there would be peace if his opinion amounted to anything, but it don't. It is the one thing in his mind, not war. He is not sold on this picnic, by any means.

We have the progressed Mars in good aspect to his Venus in the 1st from the 3rd, a clear indication of his trend of mind. His progressed Saturn is now conjoined with his Uranus, and Uranus by progression is right over his radical Moon, another indication of tremendous internal losses, and of the spending of huge sums.

Aries is said to be the ruling sign of England. England has been consolidating her position during the passage of Mars through that sign during the last half of 1941, and it forms some very fine influences from the King's chart, falling in his 6th, a clear indication of a building up. But the picture is changing, as indicated in all of the other charts, especially Churchill's.

Toward the end of January, Mars, now in Taurus, opposes his Venus. This keenly sensitive man will suffer tremendously, for heavy losses are indicated in the fields of battle; and it is likely to strike close at home as Mars opposes his Venus on or about the 24th of January. This influence will be in orb for the last ten days of the month; we haven't space for minute details. It also squares his Jupiter in the 10th; loss of prestige and power. Certainly the prestige of the Empire will suffer at this time. And again, as in the case of Churchill's chart, February will be a bitter month for the Empire, for Mars is now on the cusp of the house of death, opposing Saturn during the first half of the month, and Uranus and the Moon the second half. His health will suffer at this time, and there will likely be a death quite close to him. His armies will suffer tremendous losses on the field of battle, but the press will not report the extent of those losses, and they will be extensive. However, the transiting Jupiter will be favorable to his Jupiter at birth, so we would say heavy losses but no defeat. Mars will also cross that point during the last 10 days of March; but in April considerable anxiety is shown as Mars and Jupiter cross his Neptune and oppose his Mercury. Heavy losses at sea are indicated.

Mars and Jupiter are now in the 9th, and opposing his Sun during the greater part of the month; heavy losses in foreign lands are indicated. Jupiter continues to oppose his Sun for the first half of May, but Mars is a little better, though it is weak in the sign of Cancer.

One of the greatest factors in the King's chart is the position of Saturn and Uranus, because throughout the year they will be in the 8th house, the house of death, and opposing his Moon. This will be very strong in February, March and April, and so they will be tragic months for this likable young man.

**THE DUKE OF WINDSOR:** Edward is going to figure in the headlines very much before the year is out. The chart of this native is not as strong or powerful as that of his brother, George; but it is more colorful and spectacular. One has only to think back to 1939 to know that, when he cast aside the throne of the greatest Empire on earth for a woman, a woman considerably his inferior. This was a working out of Venus opposed to Uranus in his chart at birth, the 3rd and 9th houses. This episode reminds one of the story in the Bible of Queen Esther; read it through and you will get the point.

An important move lies just ahead of Edward; his progressed Sun in the 7th house, in the royal sign of Leo, is now in good aspect to his Jupiter and Saturn at birth. This definitely indicates a step upward, and in my opinion signifies a move, possibly the Governor-General of Canada. It was not accidental that he was sent to the Bahamas, it was definitely planned as the first step, where he would have an opportunity to feel out the temperament of the American people by occasional trips. Saturn and Jupiter were in good aspect at birth, and from the signs of Gemini and Libra, giving him considerable diplomatic ability.

This will be a good move for Edward and for the Empire, but not a very good move for the people of the United States; we shall see. Not only does the progressed Sun form these powerful influences, but during the early summer months his progressed Moon, which is now going over his midheaven, the highest point in the chart, will come up to a favorable influence of Saturn, augmenting the same influence; and so in my opinion that is when it will come to a head, around June or July of '42, possibly when the Sun crosses Jupiter, which it does around June 9th. It is the end of penance for the Duke.

You might even find him replacing Lord Halifax as British Ambassador at Washington, for I am quite sure that both of these positions have been discussed. Edward has considerable affinity for the United States, with his Jupiter in Gemini in good aspect to Saturn; then

there is his American Gemini wife. Which of these two posts will be offered, depends upon the public reaction; I feel quite sure that they would prefer him at Washington. It is possible that a trial balloon will be sent out around February as Mars goes through his 3rd house. If not, the first part of April when Mars crosses his Jupiter, especially as the transiting Jupiter will be crossing that point. Additional testimony is the fact that Uranus and Saturn will be favorable to his Mercury.

Incidentally, two planets will play over that point practically all the year.

We spoke of the indications, in the King's chart, of the death of a woman; we find similar indications in the Duke's chart, with Saturn and Uranus afflicting his Moon from the 4th house, representing home life. He will be under a considerable stress and strain as Uranus and Saturn play over that point on and off during the latter part of '42, in fact it goes over into the next year.

In the month of August Mars enters his 2nd house, and in good aspect to Jupiter and Saturn; and so if the move has not already been made, it certainly should come to a head at this time.

### FROM OHIO:

"I have read several sample copies of The Beacon Light, and find it not only very interesting reading, but a very honest and sincere analysis of the present day economic crisis.

I am enclosing a check for \$4.00 for which you may send me a 1-year subscription for The Beacon Light as well as one to my brother, who I am sure will be interested.

And as a word of encouragement, may you receive many more checks for subscriptions in the mail, so that you can continue to spread the truth from coast to coast in your great service to humanity. There are very few today who have the courage to express their convictions even when they know that a whole nation is at stake. So, more power to you, and may God give all of us strength and courage to face the facts of world evolution. . . "

I wonder what he and also his wife, who was very active in a musical way, now think.

After all, those who really gather together for TRUTH are two and three. As Madam Blavatsky stated truthfully, only about one in 999,999 is whole-heartedly in search of TRUTH.

A lady arose and said: "Mr. Spaulding, you promised that I would see Jesus after I had taken your course. I took it, but I haven't seen Him yet."

A man asked: "Mr. Spaulding, can you honestly say you have seen Jesus?" "Why yes, many times, and He looks just like us," Spaulding replied. And I almost laughed aloud, to think he was dumb enough to say THAT, because TO LOOK LIKE US would not be at all flattering for one in HIS LOFTY STATE OF DEVELOPMENT."

It makes me furious when I see all these royal refugees over here living on our money and reporting our young officers to the government for arguing with them about all out aid for Britain, having our 100% American officers court-martialed for not wanting to fight for England's skin. It has been my opinion for some time that every Britisher over here was a British agent, and if not on their payrolls as such then on ours. It makes me sick. . . .

Another question: Why is it that most all of the interventionists have somehow been able to keep their own sons out of the service, or in safe positions while all the ones who are opposed to war have to let theirs go?

I notice many letters to the Editors now asking for impeachment of the President, Knox, Stimson and asking for a showdown. Why do not the Gentiles (non-Jews: Ed.) organize like the B'nai B'rith? Things are getting pretty scary for the Jews here in N. Y. now."

"On October 9th, I was in the Loop in Chicago, and went up to the headquarters of the 'Citizens Keep America Out of War Committee'; that was my first visit there for I am a member of that 'subversive' America First Committee, and have done a great deal of work with them.

A lady in the office said to me, You should get The Beacon Light and read it; so I asked her where to get one, and at that moment a lady came in, and said, I sell them. So of course I bought one, and you will never know how much I enjoyed reading your magazine, and the things I learned from it.

I am telling you this for so many people do not know of your work here; I have worked with the America First Committee all these months, and never heard of your work. We have done a wonderful piece of work, along with other Committees, to keep our country out of this dreadful bloody slaughter in Europe.

In your book you seemed discouraged, and right you should be, when the people are so unconcerned, Congress has failed the people miserably, the President has played them false and yet they sleep, just like France. It is awfully hard to try and do good for people who are concerned with everything but the welfare of their own country. If good grew as swiftly as evil seems to grow, how happy we would be. I pray your readers will help you financially to keep going.

In the near future I hope to be financially able to help you in your work; will get The Beacon Light each month."

You are a wonder in the great work you are putting out. I have read it from kiver to kiver; so I have decided to send you one dollar each month as you suggest in your October number, for the work can be done in a small way. I am going out and contact people and acquaint them with this wonderful publication. Some will not be interested of course, to some of them I will give the book, then some after reading it may want to subscribe for it. — — —"

Note what this friend says about Stephen A. Day's speech: "We Must Keep America Independent". We still have a supply of these, and they should have the widest possible distribution, to combat all the 'Union Now' poison being spread throughout the land. They are \$1.00 per 100, splendid missionary material.

Address over Radio Station KGIR, Sept. 10, 1941

By Dr. Jacob Thorkelson

Today 83 per cent of our people are opposed to lending, and leasing the youth of America to Churchill and Stalin, in order to establish the doctrine proclaimed in the Communist manifesto, which I quote:

- (1) Hatred of God and all forms of religion.
- (2) Destruction of private property and inheritance.
- (3) Promotion of class hatred.
- (4) Revolutionary propaganda, to cause strikes, riots, sabotage, bloodshed and Civil War.
- (5) Destruction of all forms of representative and democratic government.
- (6) Abolition of family, and open legalized community for women.
- (7) Establish the dictatorship of the Proletariat, with headquarters at Moscow.

These are the principles of Stalin and his Communistic cohorts, the most inhumane and ruthless despots the world has ever known. He maintains his powers by military force and an army of spies, and he rules the Russian people with the firing squad.

"The Third Internationale", a paper published in Moscow, admits Soviet responsibility for the following lives, quote:

"The Royal family and seven innocent persons, 28 Bishops and archbishops, 6,775 Priests, 6,575 teachers, 8,800 doctors, 54,850 officers, 260,000 soldiers, 150,000 police officers, 48,000 gendarmes, (detectives), 355,250 intellectuals, 198,000 workers, and 915,000 peasants.

This list of murdered people represent only a few of the many millions of innocent men, women and children who have lost their lives during the communistic regime in Russia. The ruthlessness of Lenin, Trotsky and Stalin is no longer a secret as it is recorded by many who have suffered under Soviet rule.

What is not so well known is that these three revolutionaries and the red revolution were promoted and financed by that group of international trouble-makers called the International Bankers, and that they are identified or named in "The Foreign Relations of the United States", W. T. I. and other special government reports. It is these International Bankers, brokers, and merchants that control the gold, and it is gold that controls the press, radio, news service, and

cinema; the four mediums which these men use to soften public opposition to war.

To keep out of war it is imperative to understand how the press is used to create intolerance and hate; how it is used to mislead the public and close its mind to facts. This is how it is done; I quote from "Behind the Scenes of French Journalism":

"Three days before the war broke out, a resolution was offered and passed the same day, by the French Parliament, providing 25,000,000 francs for the establishment of the 'Maison de la Presse'. The House of the Press was a building of 200 rooms, No. 3 Rue Francois, five stories high, where propaganda was started, false news manufactured, false photographs of well-painted atrocities made to prove the wickedness of the Germans with unlimited perversion of facts, and the invention of bloody butcheries. There were 80 employees transmitting to the Foreign Press, **free of charge**, and in eighteen civilized languages, reports of French victories and painted cruelties of the Hun and Boches. Here were distributed the terrible stories about Germans cutting off the hands of children, crucifying prisoners, boiling the dead for fat, etc."

It was this sort of propaganda which in 1917 turned us into a Nation of fanatics, who believed that the Kaiser and the German people were set to conquer the world, and it is the same fairy tales the Press and those who want war are now serving to fool us again.

Our nation is now divided. Eighty-three per cent of the people believe we should mind our own business and stay out of foreign wars. They believe that the interest of the American people and our Republic can best be served by fortifying and preparing the United States instead of the British Empire. Seventeen per cent believe that we should engage in foreign wars, even if it wrecks our industries and the government of the United States.

Those who represent and speak in the interest of the majority are denied the use of public halls, radio, and space in the press to express the wishes of the 83 per cent who are opposed to war, and particularly, a war in support of Stalin and the Russian Communistic Democracy.

We have reached a low ebb of National consciousness when seventeen per cent wield such power, that they can deny to 83 per cent of the people their Constitutional rights. It is difficult to understand how 83 per cent of the American people tolerate having such men as Senators Johnson, Wheeler, Nye, Clark of Idaho, Clark of Missouri, and Charles Lindbergh smeared and slandered by a minority whose interest is not in the security or welfare of the United

States.

Who makes up the 17 per cent of the population that are shouting for war? Who are they? They are those who financed Lenin, Trotsky, and Stalin to establish communism in Russia and its dissemination throughout the world, and therefore, communists themselves. It is this group who smear and defame those who are opposed to war and aid to Stalin, not because they believe in self-determination or the rights of the nations, but because they believe in the doctrine which enslaves the people and makes them the property of the State. We are rapidly approaching such deplorable situation here in our own country, and it has come about because the men you elected to Congress have transferred your rights and the rights of the State to one man, the President of the United States. When the last law is passed and the last transfer of power made the destiny of this Nation rests in the power of one man, who, no doubt, will establish himself and maintain his position in the same manner as other Dictators.

The men who have spoken in the interest of the 83 per cent of our people are called traitors, because they are opposed to a war in which many thousands of the youth of America will lose their lives. Is that treason? Is it treason to warn the American people of danger? If the rights of the majority still prevail, what excuse can a minority find for opposing the wishes of the majority?

### **What Are The Facts?**

The facts are that there is no power granted to Congress or to the Executive in the Constitution of the United States that gives into war against the wishes of the people. Congress had no legal either branch of the government the right to launch this Nation right to give the President power to declare neutral zones wherever his fancy would take him. Congress should know that we have no greater rights outside our own three mile limit than other Nations have outside theirs.

The fact that the Red Sea is declared safe for our own ships does not provide immunity from attack when such ships engage in aid to a foreign power at war. Our ships are only protected as long as we are neutral and we have never been neutral since the embargo clause of the Neutrality Act was repealed in 1939!

Public indifference to the fundamental principles of the government is one of the most deplorable conditions which confronts our Nation today. The people seem to forget that ours is the only government in which the people have occupied the position of sovereigns; rulers with the powers to regulate, administer, and direct

the government nationally as well as internationally.

Federal usurpation of these powers is responsible for the changes which have taken place today in the administration of the government, and will if not corrected lead to complete loss of our rights and Federal centralized control.

Congress has gone far afield from the powers granted to it in the Constitution. The Constitution grants no rights to Congress to establish the Neutrality Patrol to aid a foreign power at war. No one has the right to dispose of property which belongs to the United States. The Constitution does not grant powers to anyone to dispose of our fleet or secret military instruments. Disposal of government property by an officer or enlisted man is punishable by court martial and sentence in accord with the crime, and when such property is transferred or sold to a foreign power it can only be classed as treason. If the crime is committed by public officials, who have obligated themselves "to preserve, to protect, and defend the Constitution", impeachment and removal from office is in order. To eliminate such officials from office is imperative in the interest of the United States.

No power exists in the Constitution giving anyone the right, when we are not at war, to order occupation of property that belongs to a foreign power. Such an act on our part is an act of war and is bound to lead to war, no matter what the excuse may be for such occupation. For Congress to laugh it off because of the position of those who order such occupation, leaves Congress responsible.

To excuse such occupation, on a possible invasion of the United States by Germany or any other European Power except England is silly. A nation with seventy million people can hardly raise an army of more than seven million, and to believe that such force can conquer the world lacks sense. Germany will find it extremely difficult to occupy and hold territory in Russia west of Moscow, unless the Russian people should join Germany to rid themselves of three or four million radical communists, who have punished and persecuted the Russian people for over 23 years.

As to an invasion of the United States by Germany without a fleet, without a merchant marine, and bases from which to operate, is more improbable than an invasion by the Eskimos from Greenland. When the United States is invaded it will be by England through Canada or by the communists through Mexico and not by Germany from Iceland. It was with such possibility in mind I suggested while in Congress that we take possession of Canada and the British islands for England's defaulted debt to the United States.

## BUT FOR AMERICA

by Harley Rosso—

I would place an "A" upon my heart and keep  
A soul unblemished in the fight and weep  
Not for the hordes who die on foreign land  
Or suffer in command—

BUT—FOR AMERICA.

I would place an "A" before my eyes and cry  
That those unthinking men of fate would buy  
NOT Godless power in some foreign mart  
Where bleeds the human heart—

BUT—FOR AMERICA.

I would place an "A" before the western world  
Where freedom keeps the stars and stripes unfurled  
Not for myself with just one LIFE TO LIVE—  
And that I'd gladly give—

BUT—FOR AMERICA.
